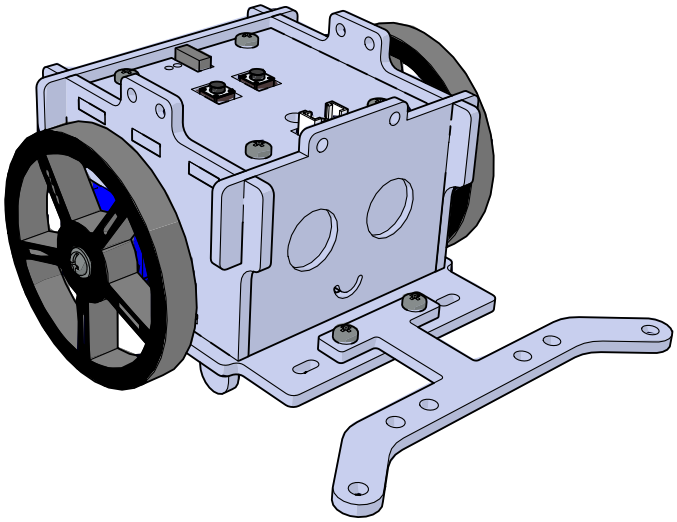
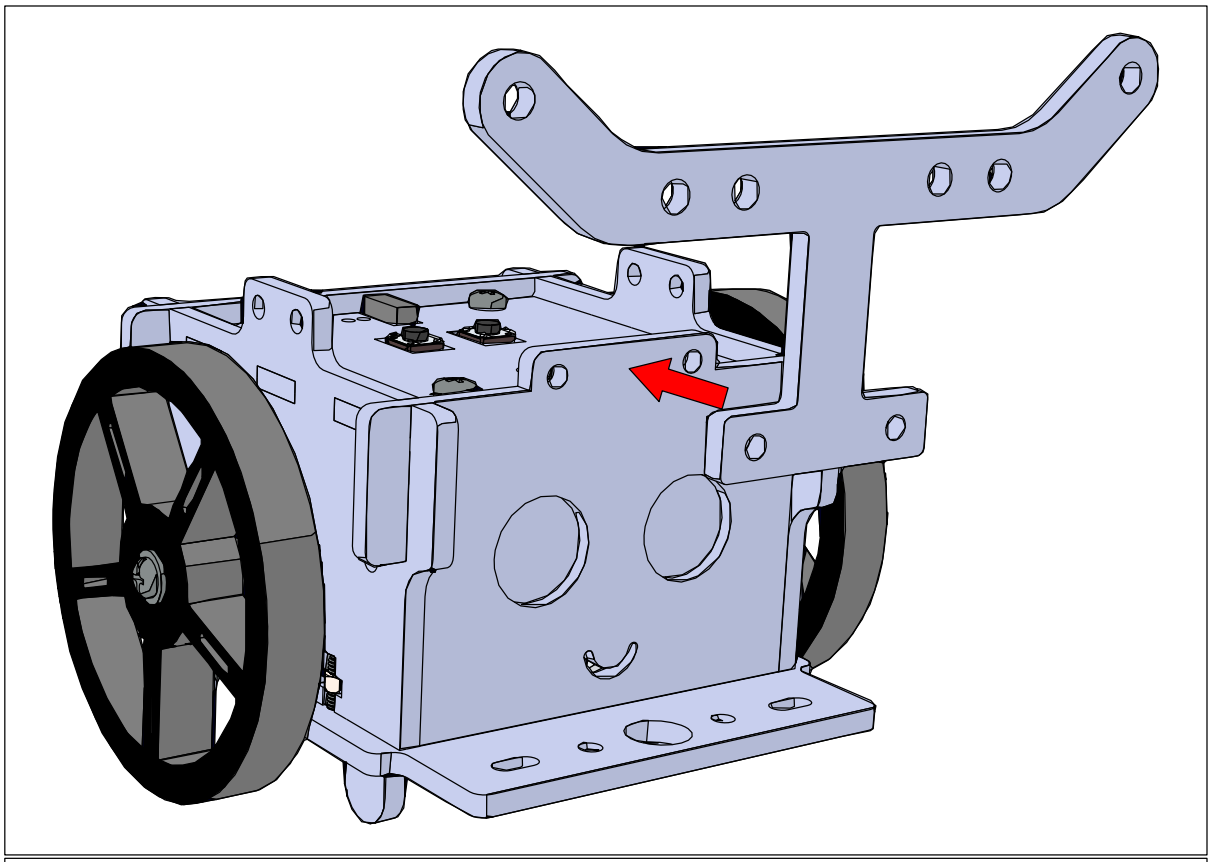
MiiExpansion Pack Assembly Instructions

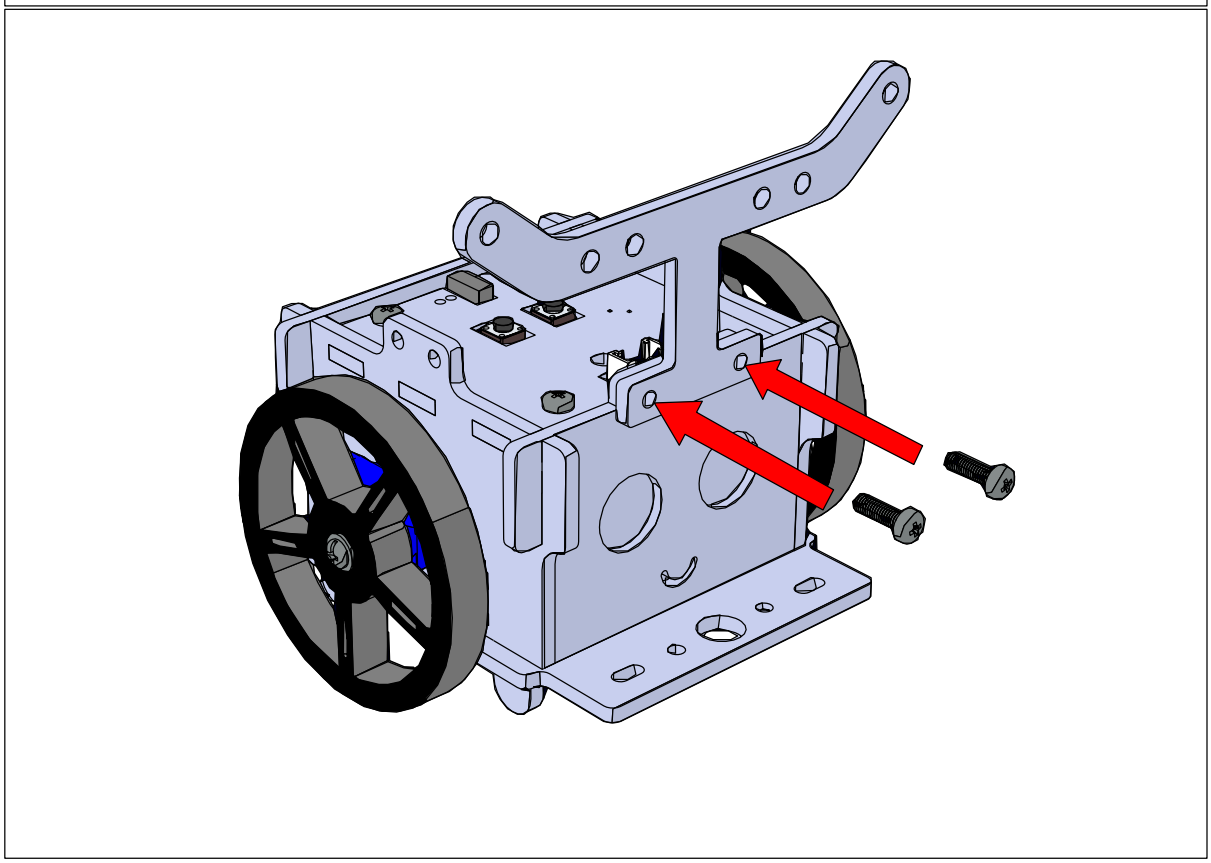


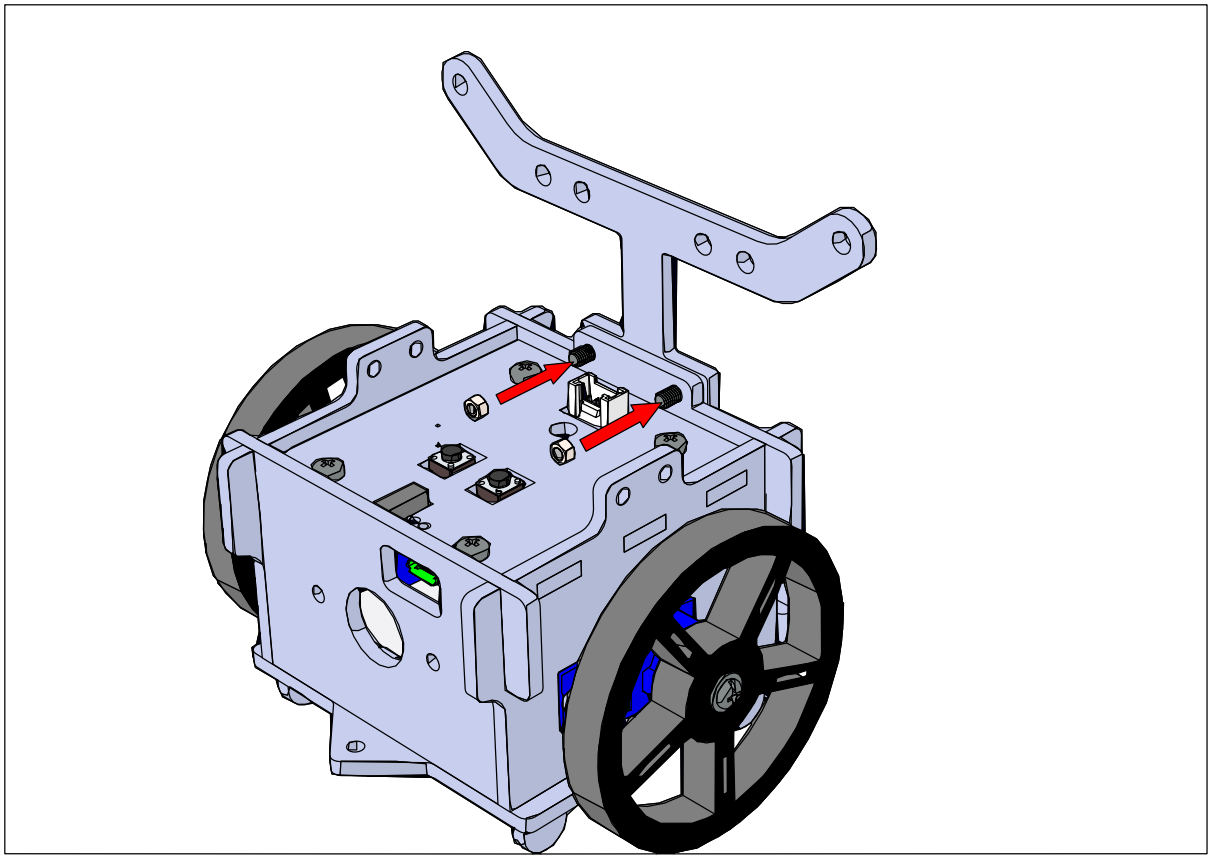
Congratulations! You are now the proud new owner of the MiiExpansion pack. These instructions will take you through everything you need to know on how to assemble the extension pack into different configurations. The MiiExpansion pack is built in the form of a 3D puzzle and is fully compatible with the MiiRo bot!

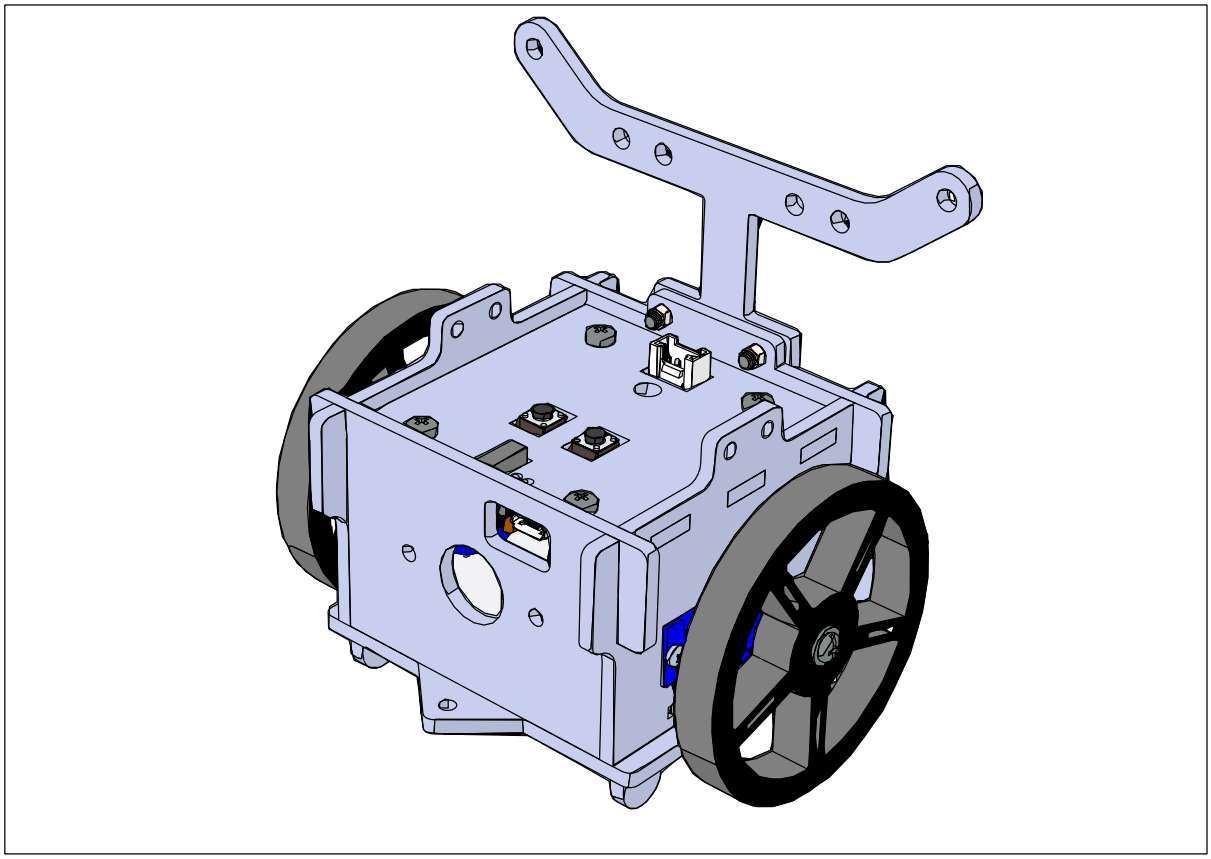
Required Tools: Phillips screwdriver

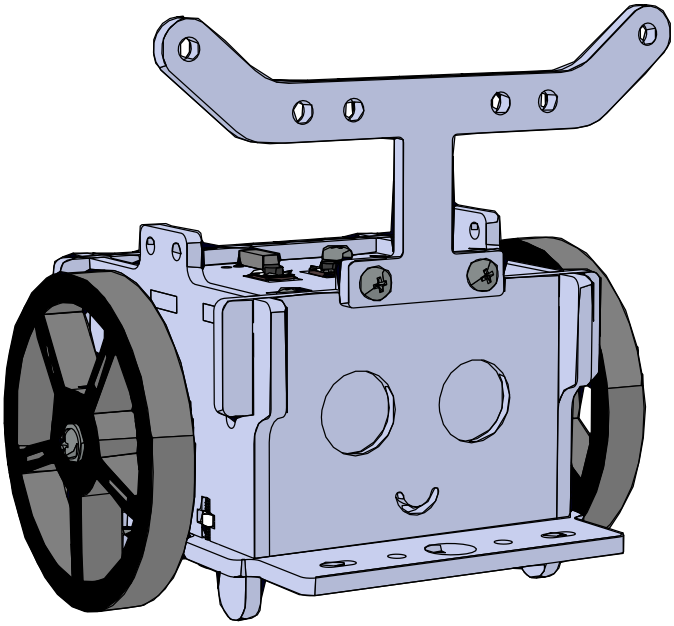
MiiRo bot Pusher Expansion

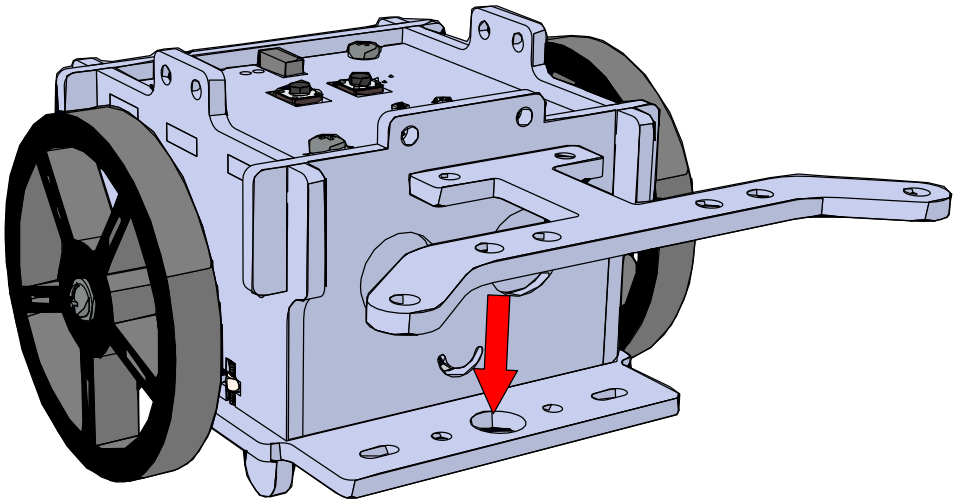


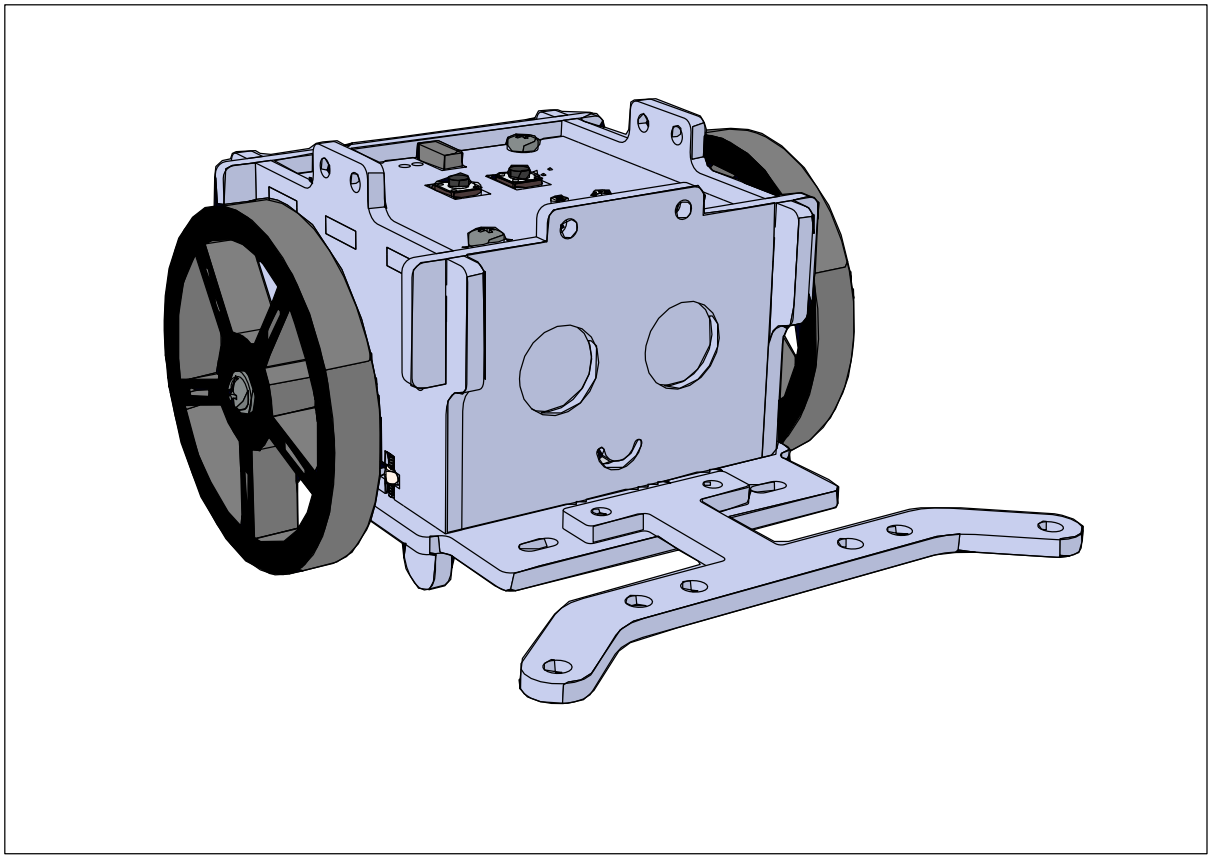


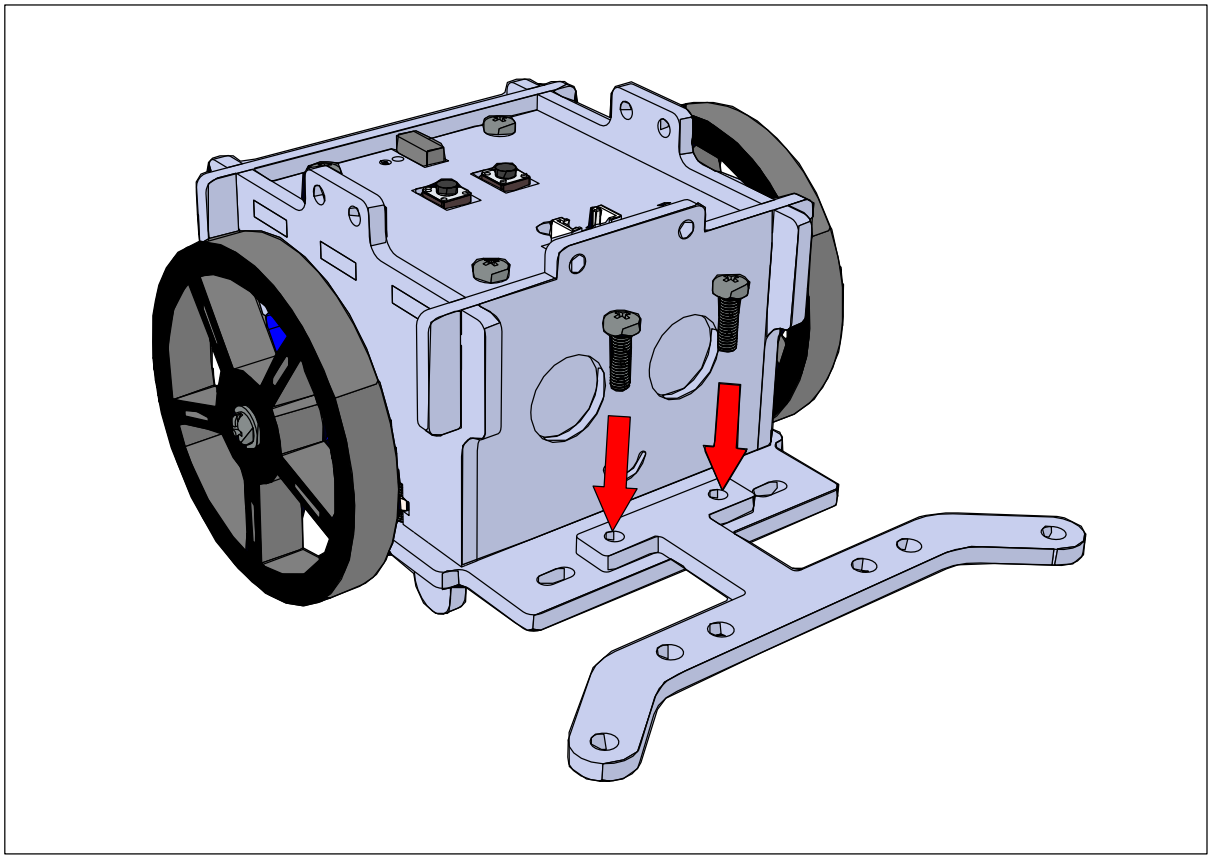


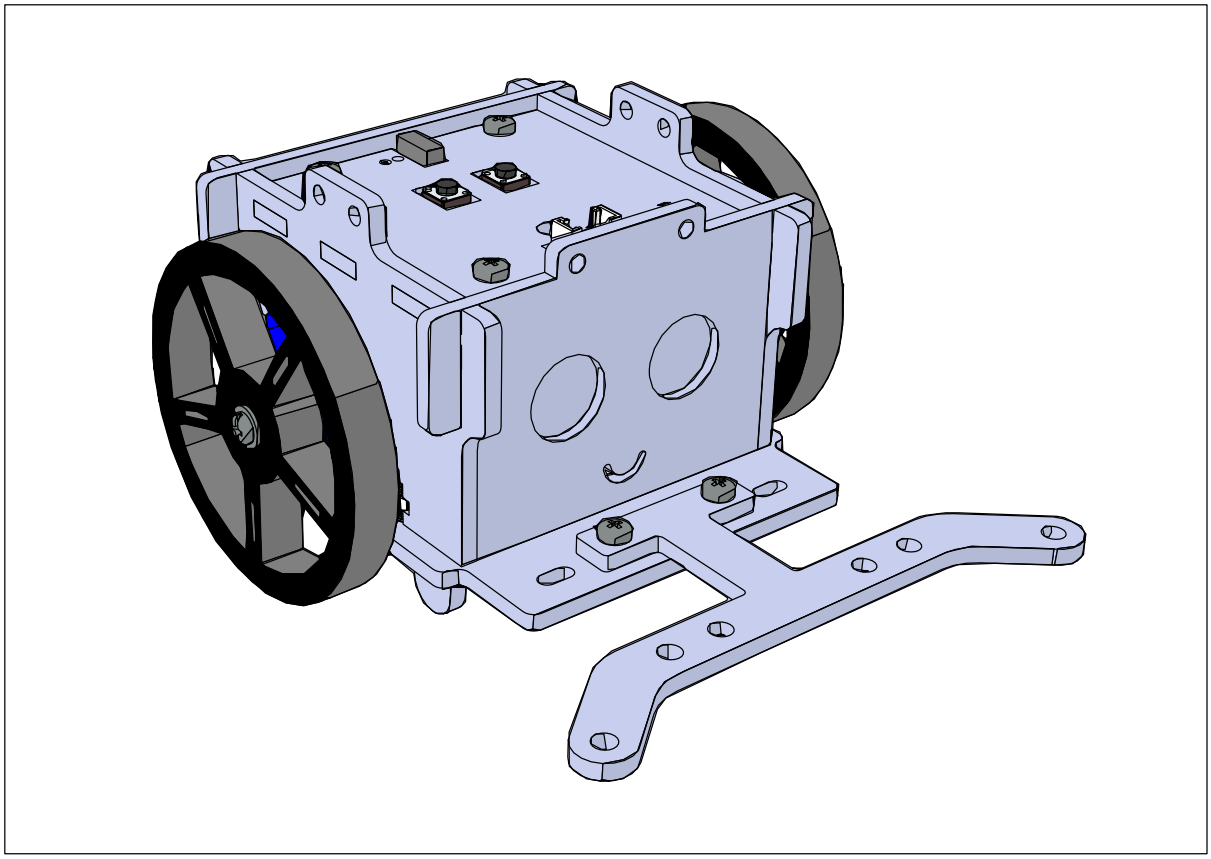


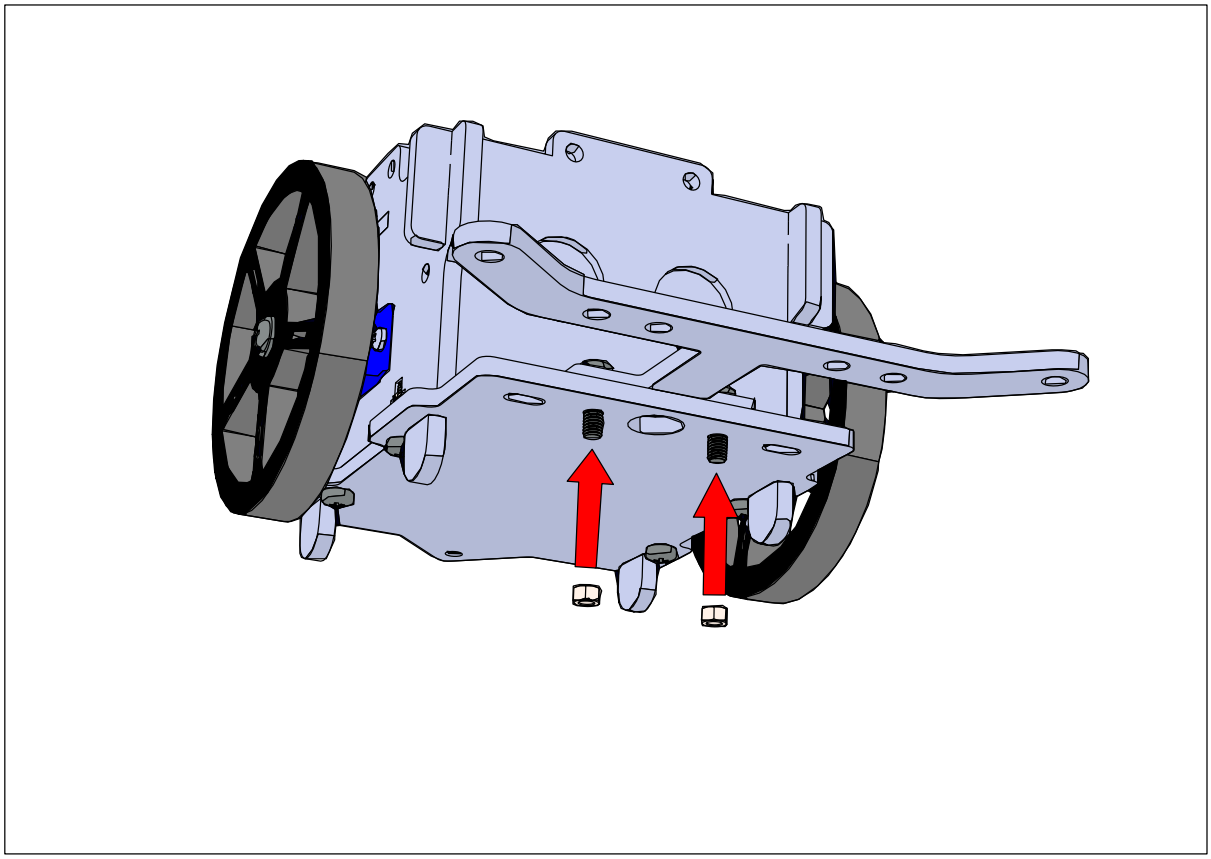


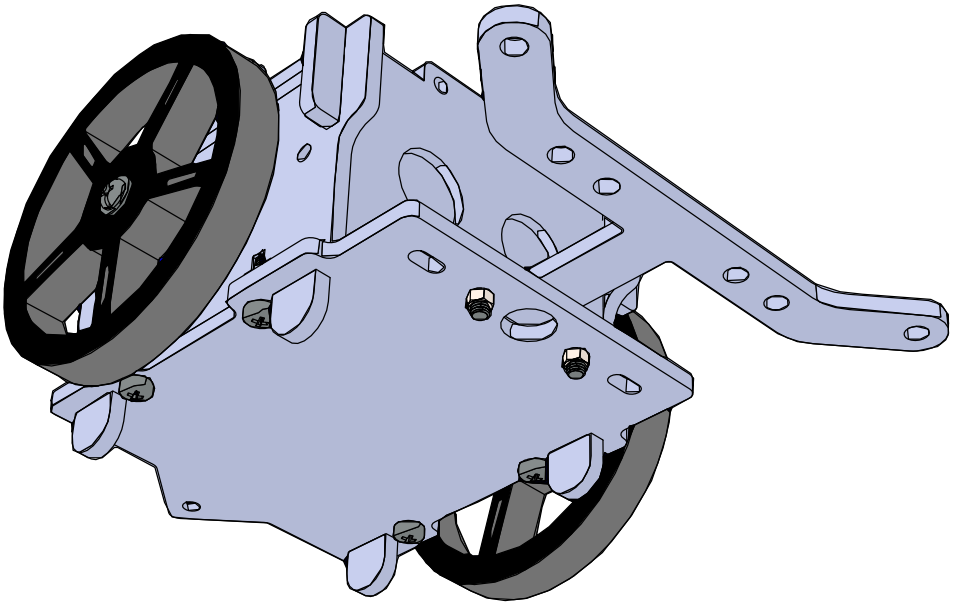


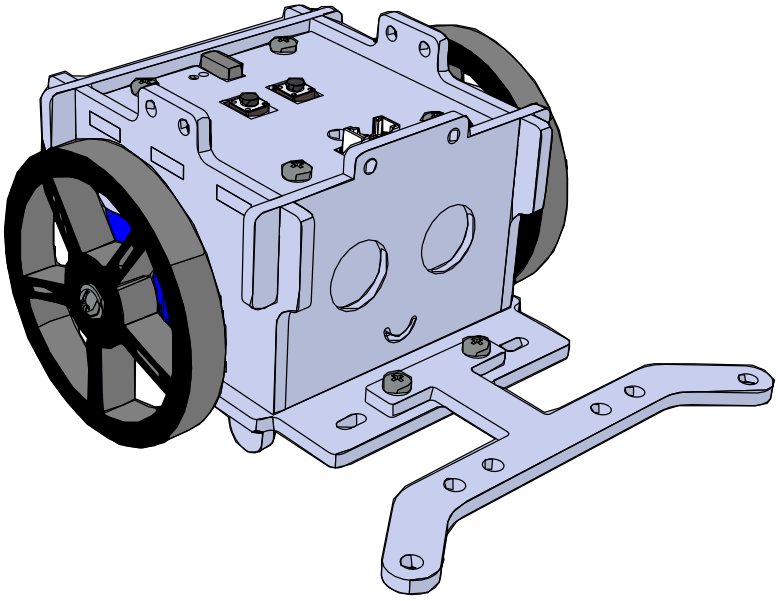




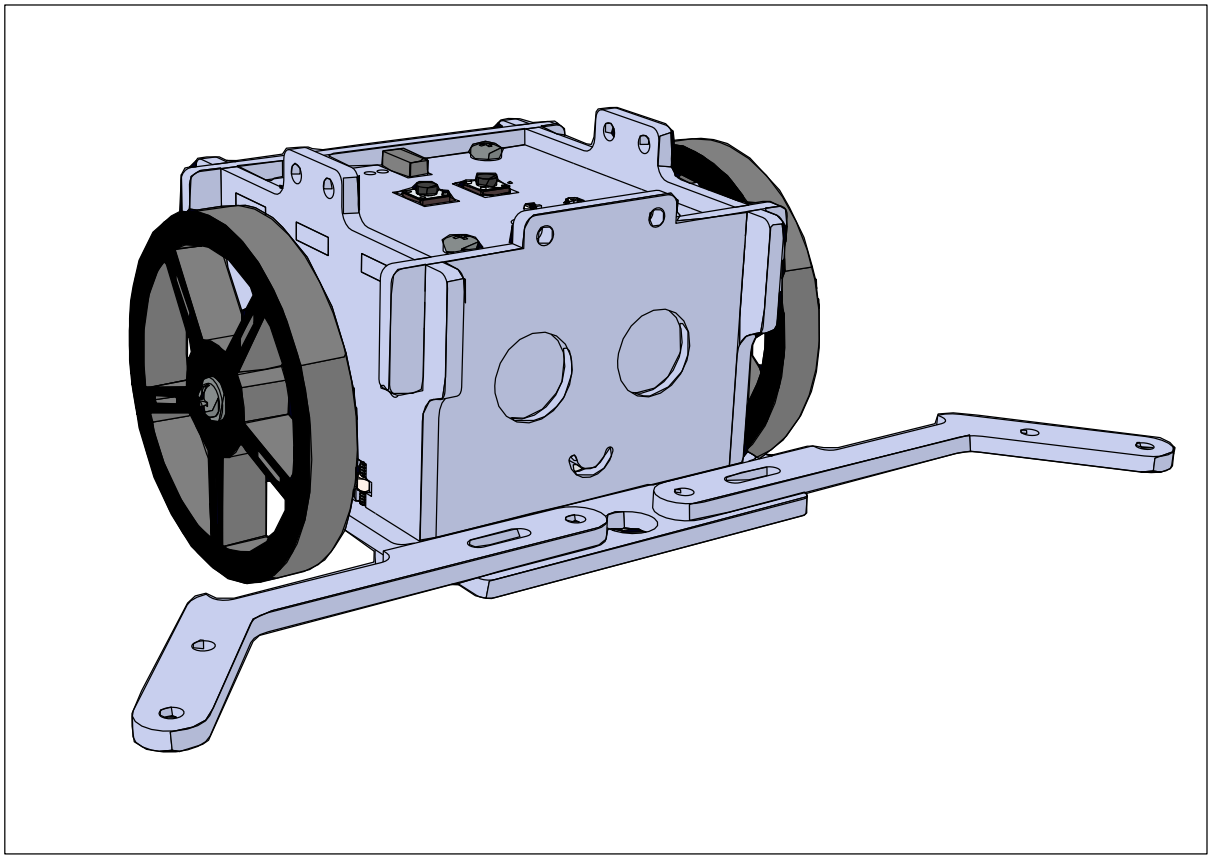


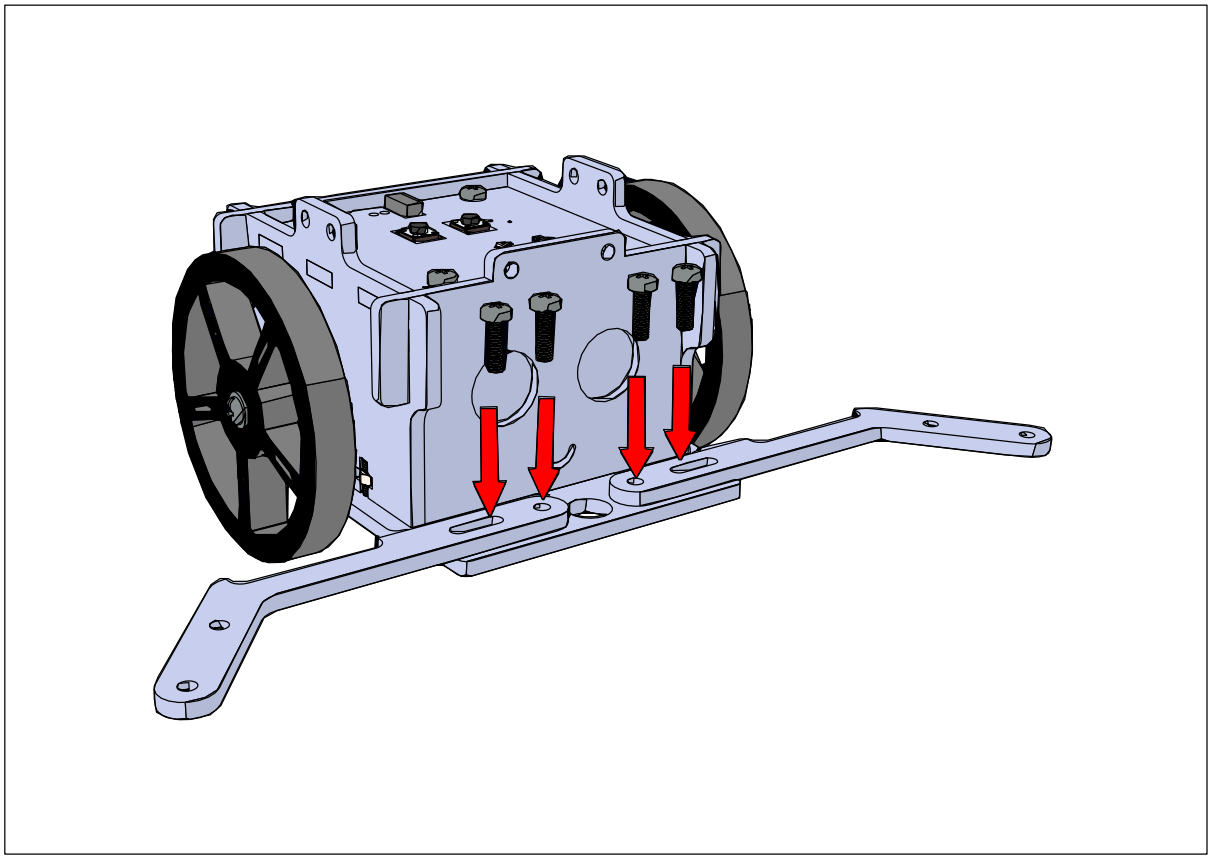


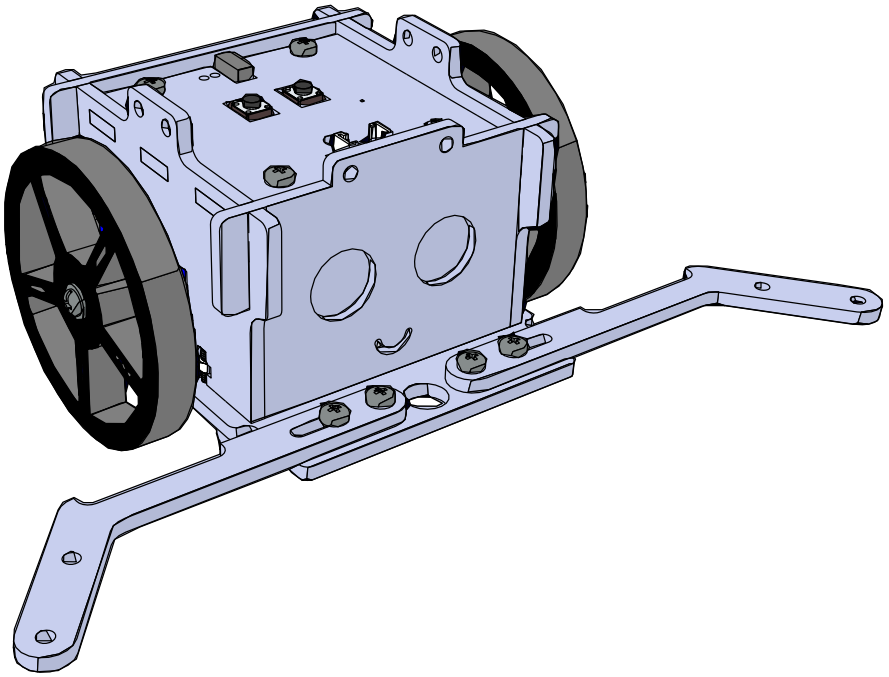


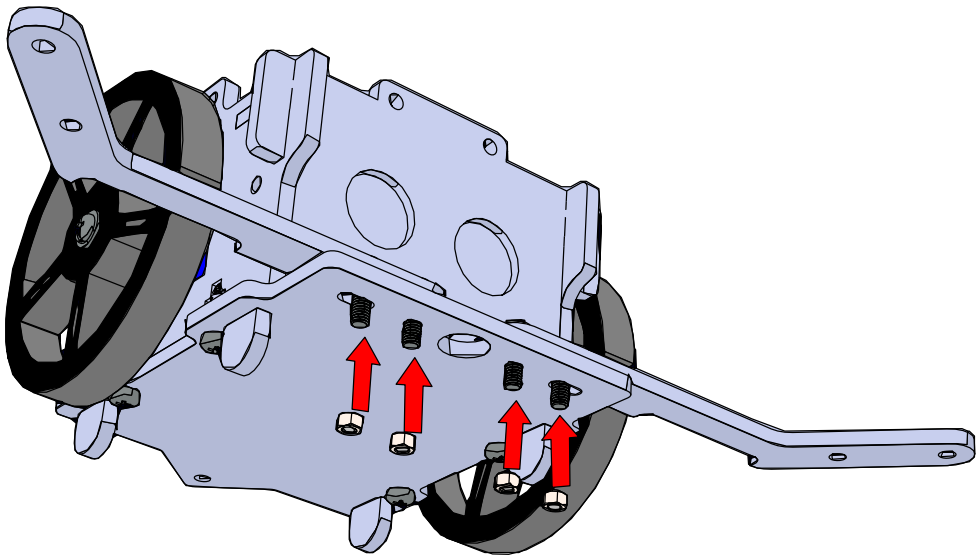


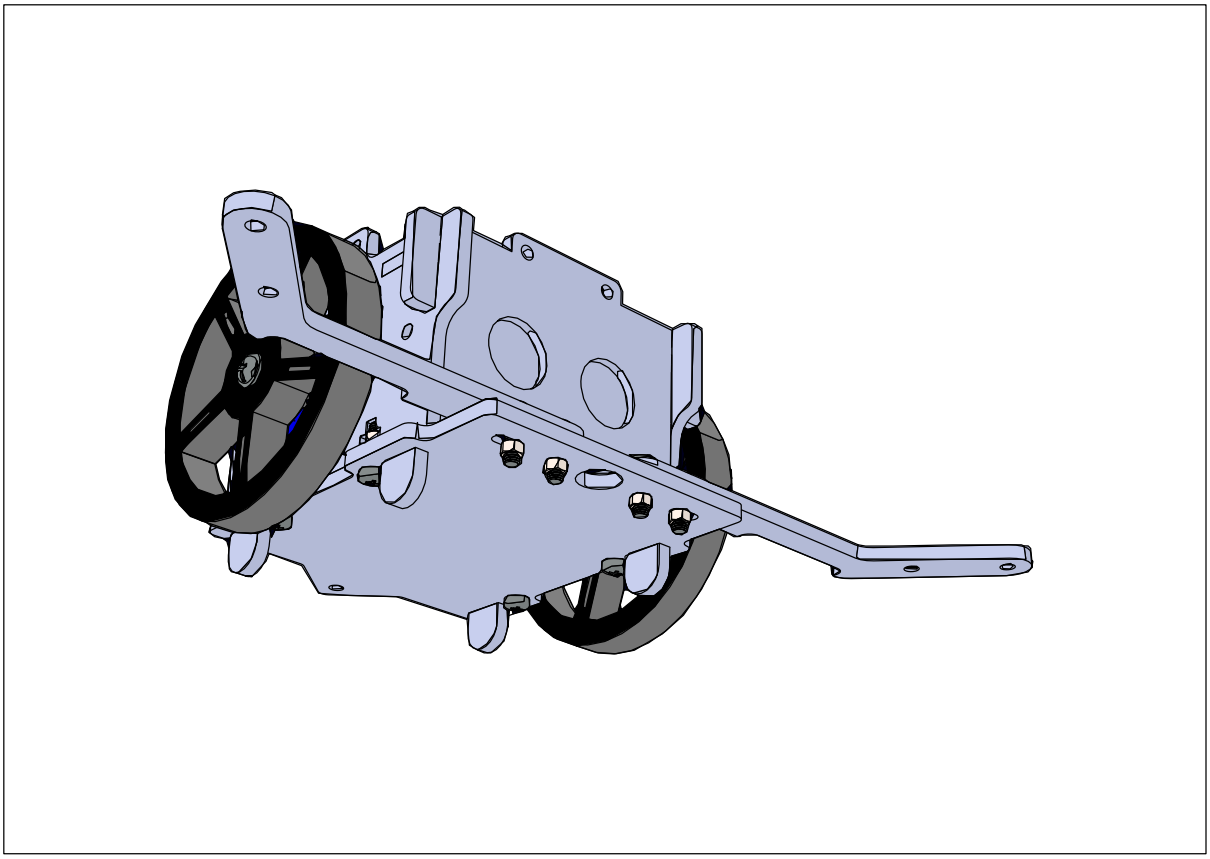
MiiRo bot Arm Configuration

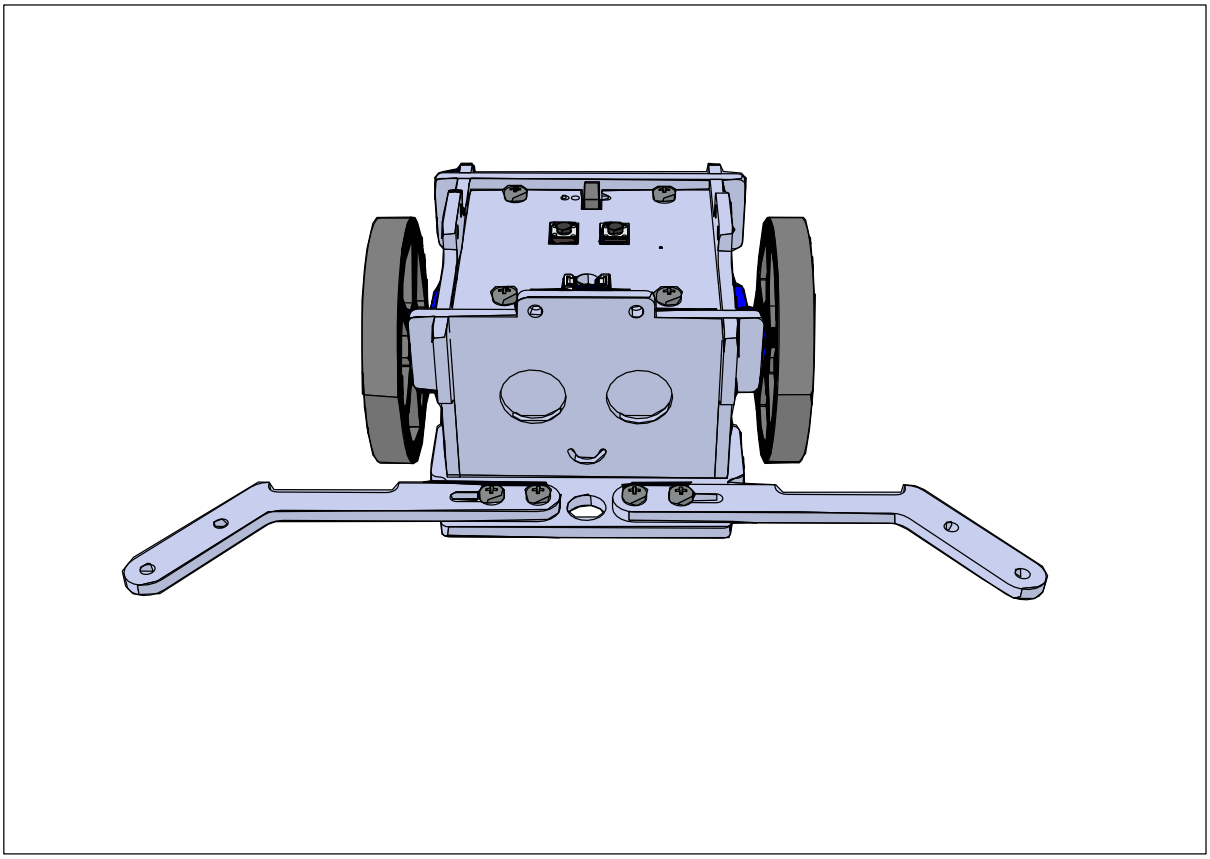




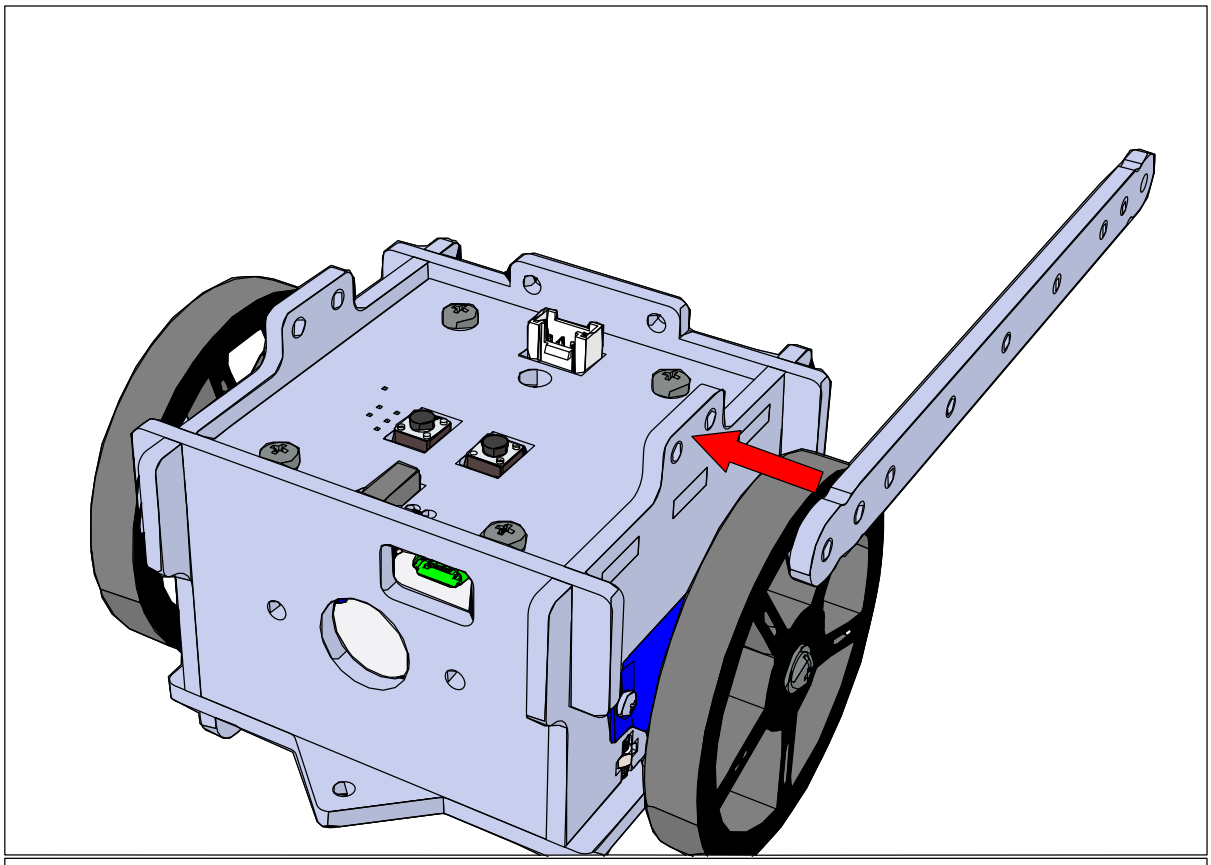


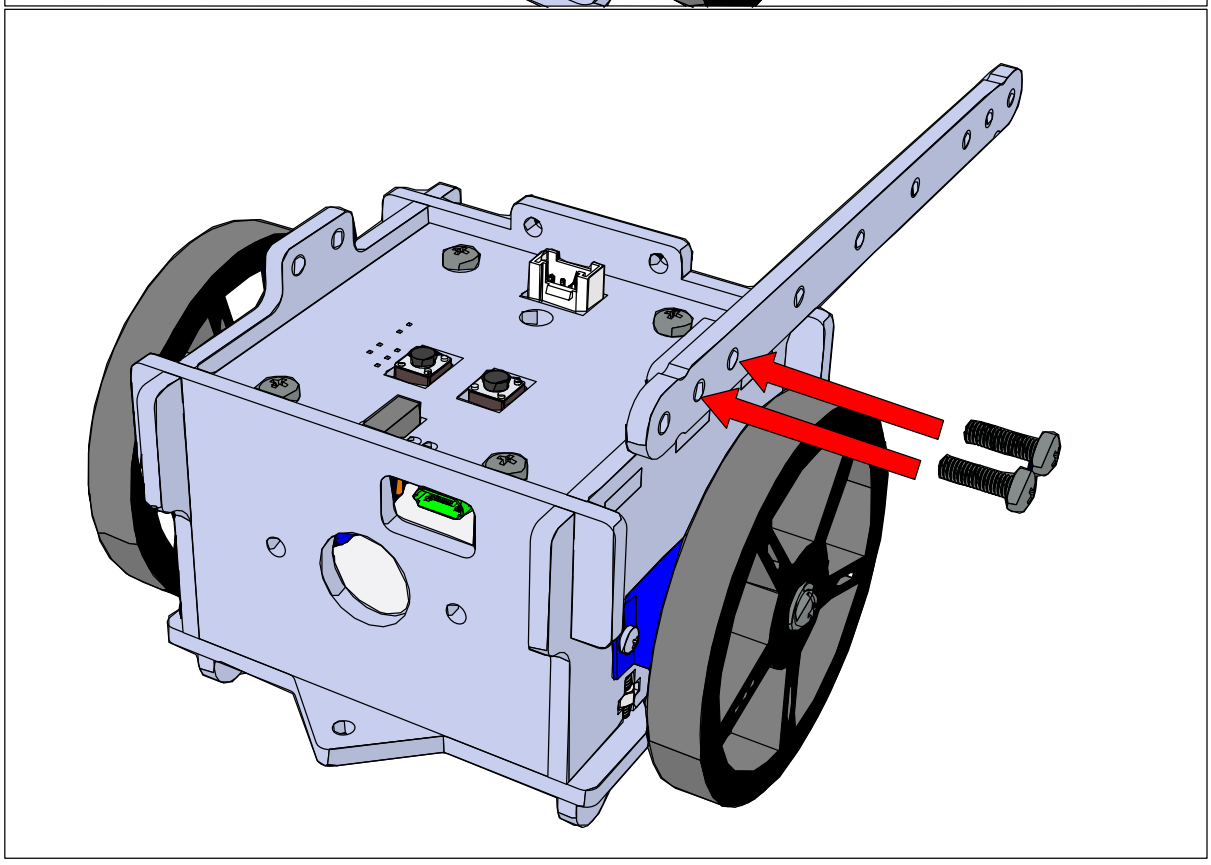


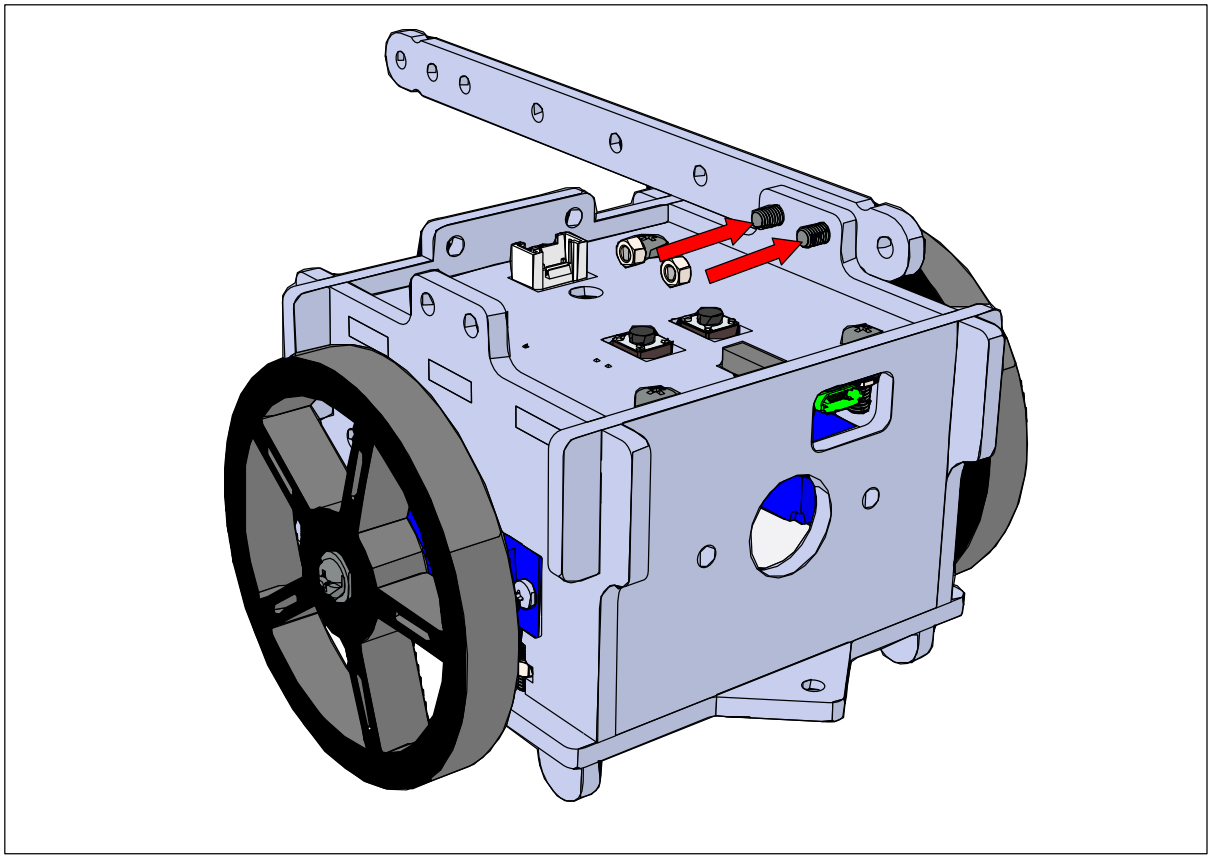


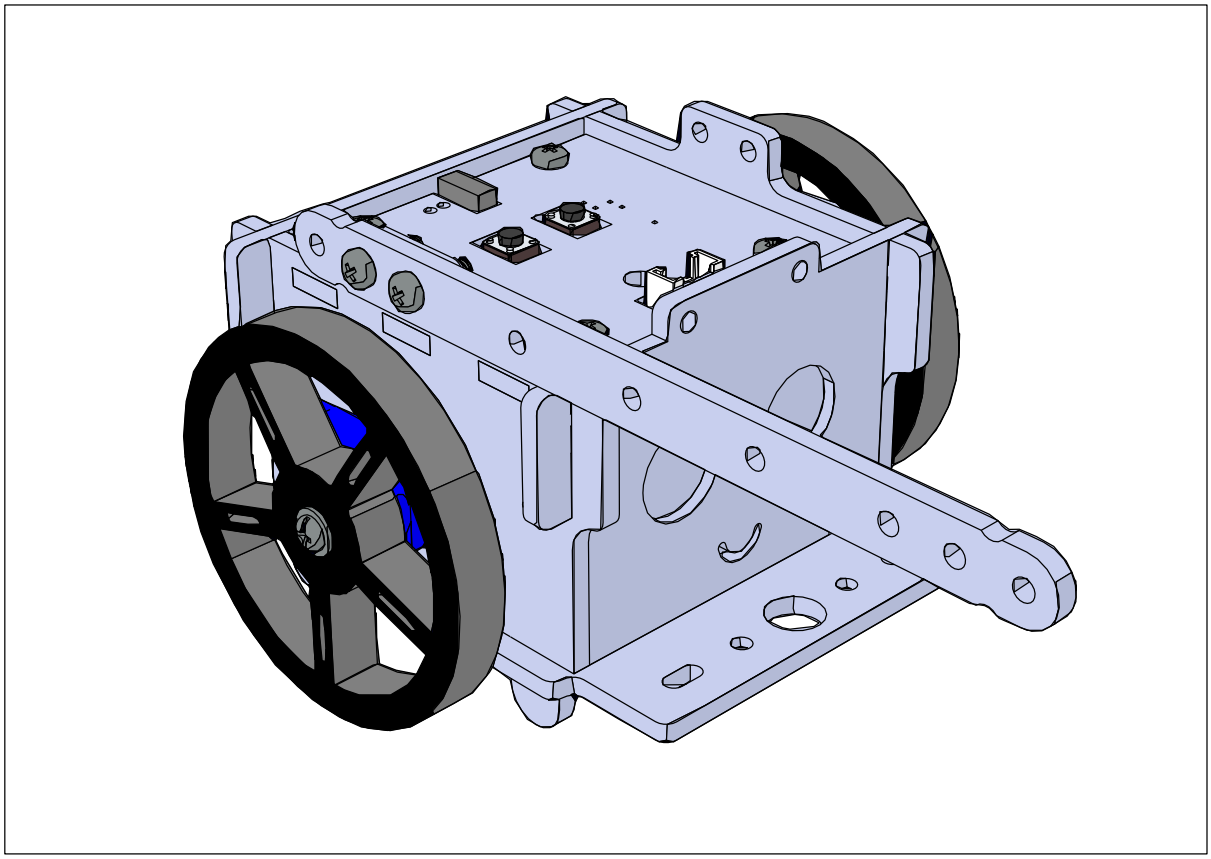


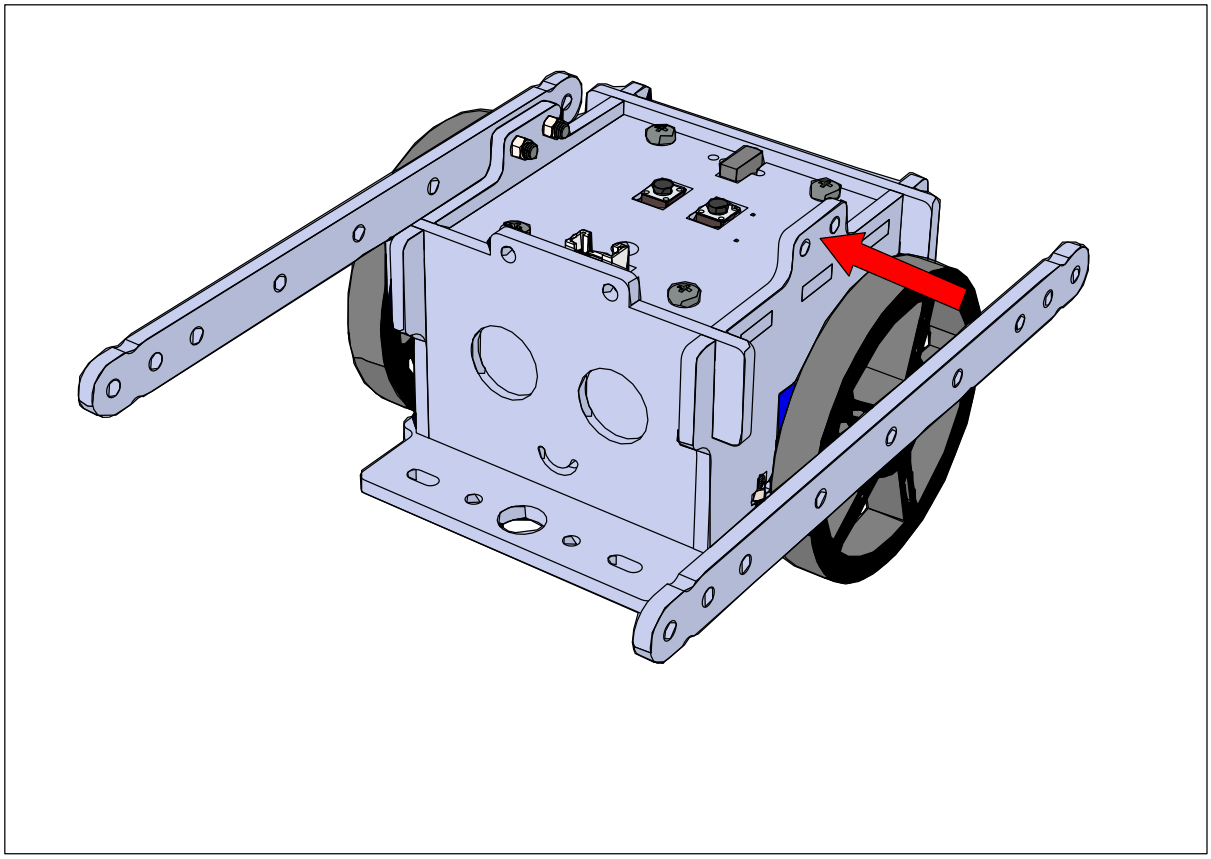
MiiRo bot Linkage Expansion

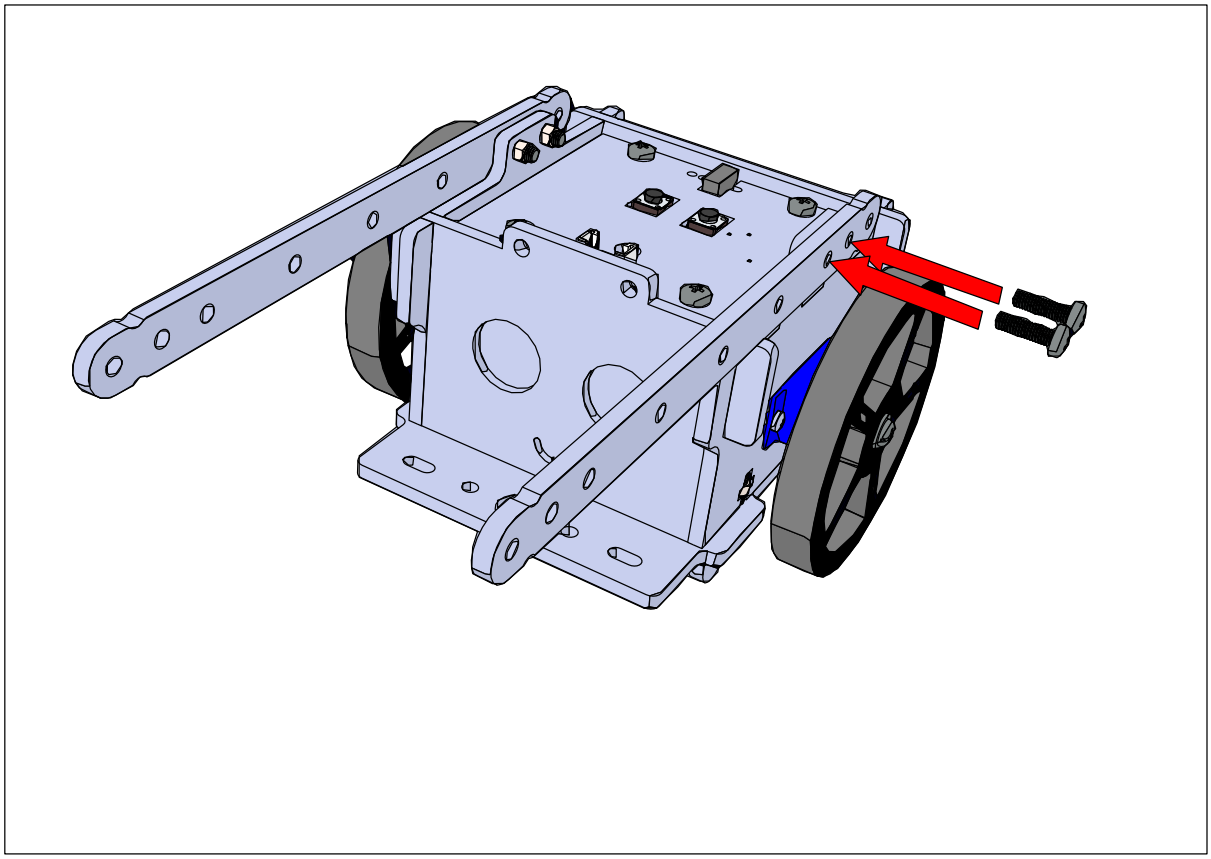


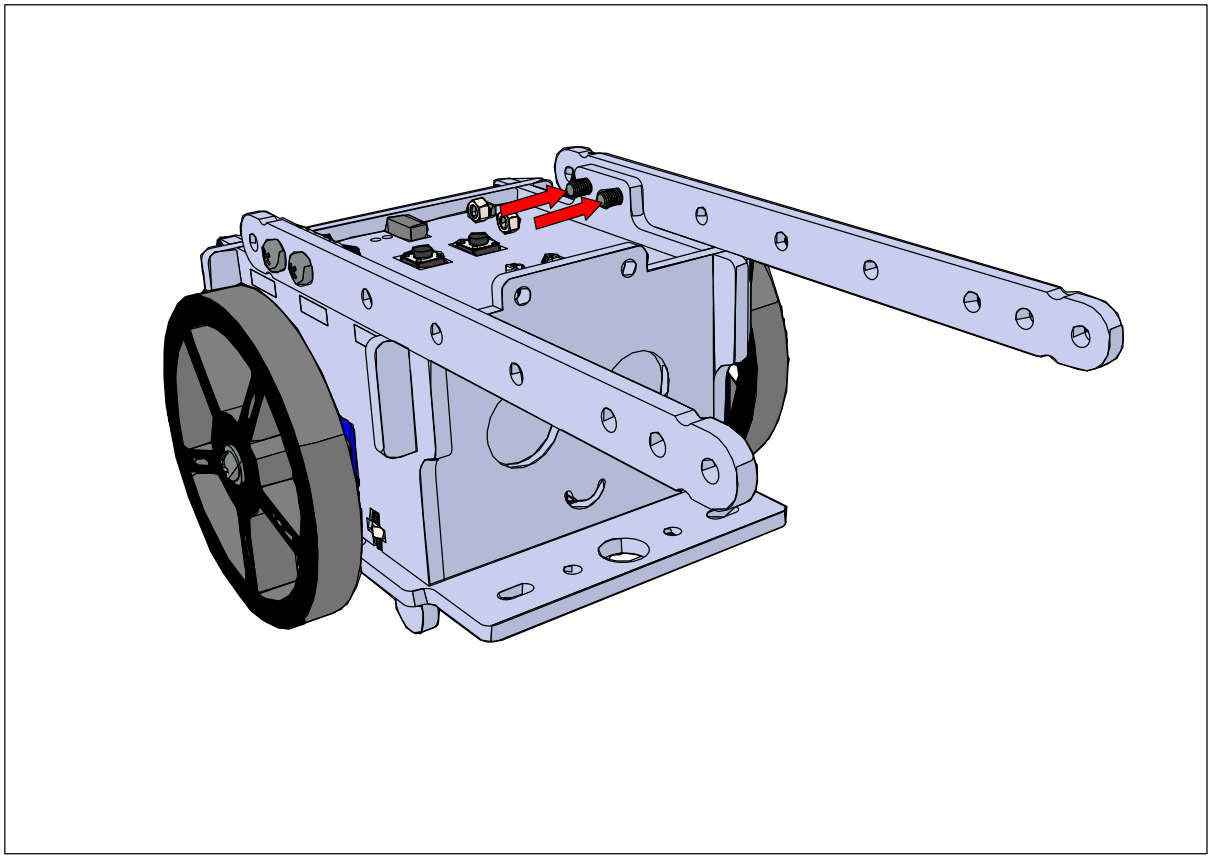


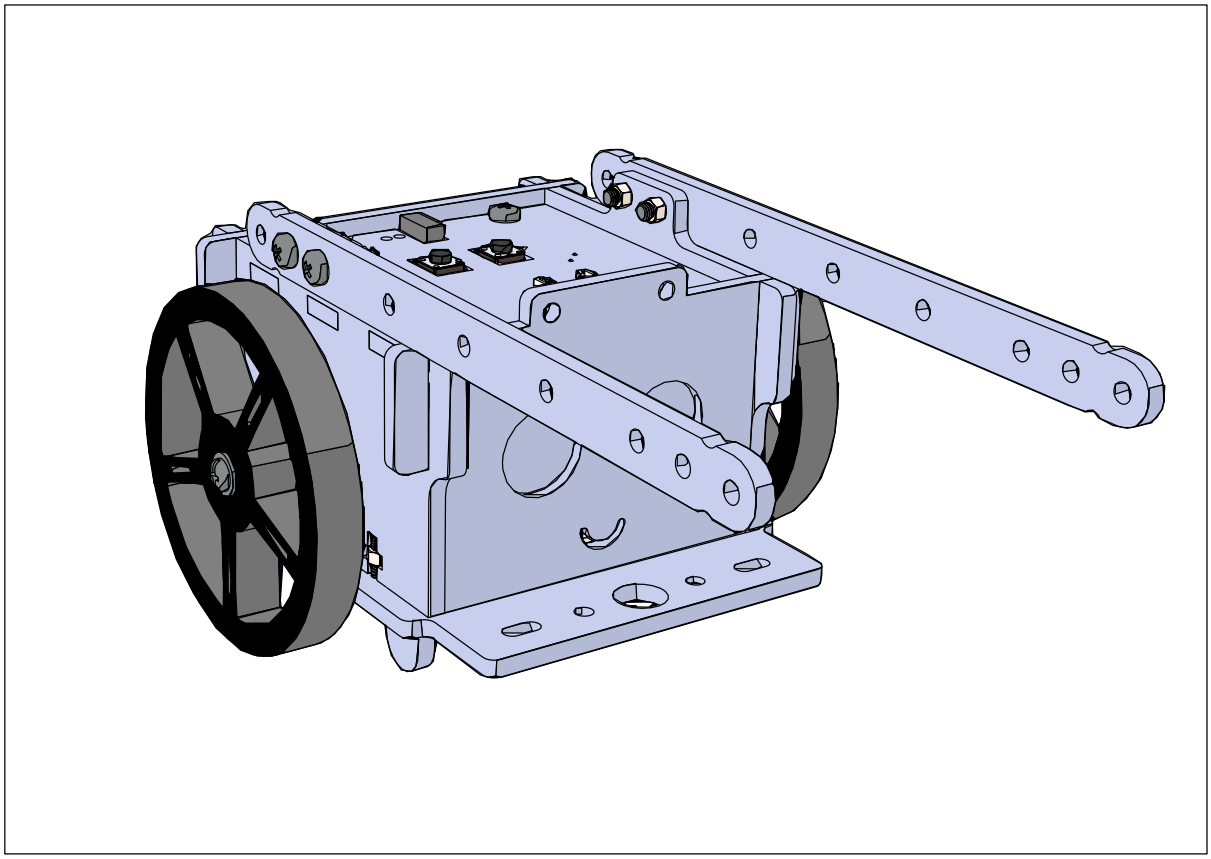




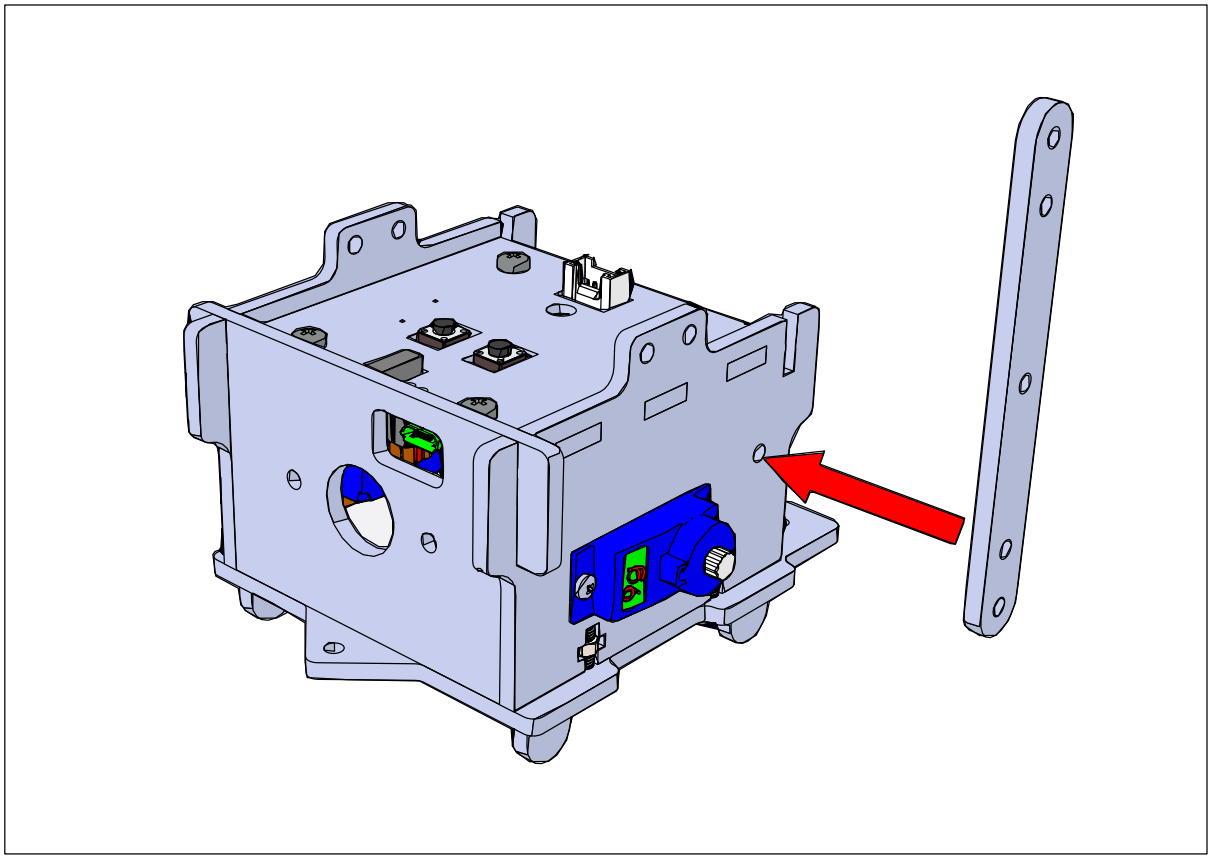


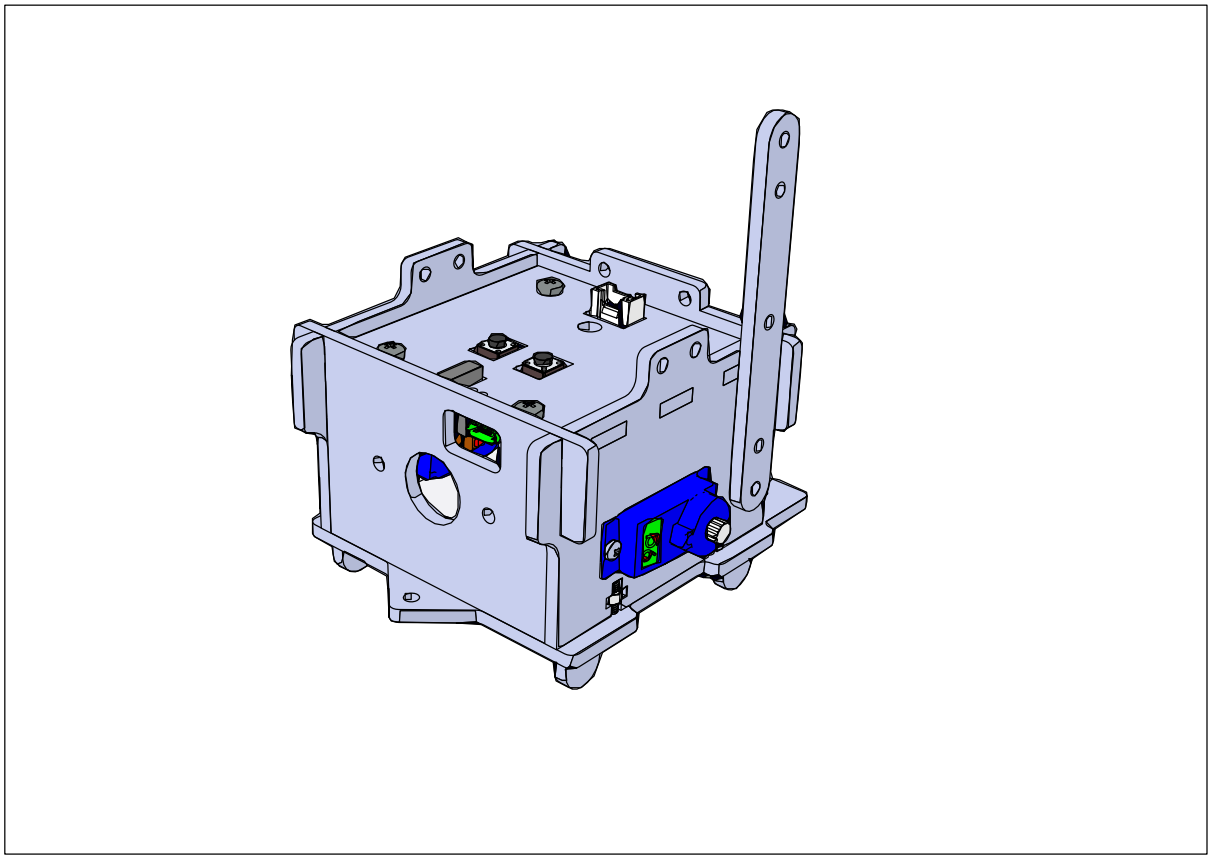


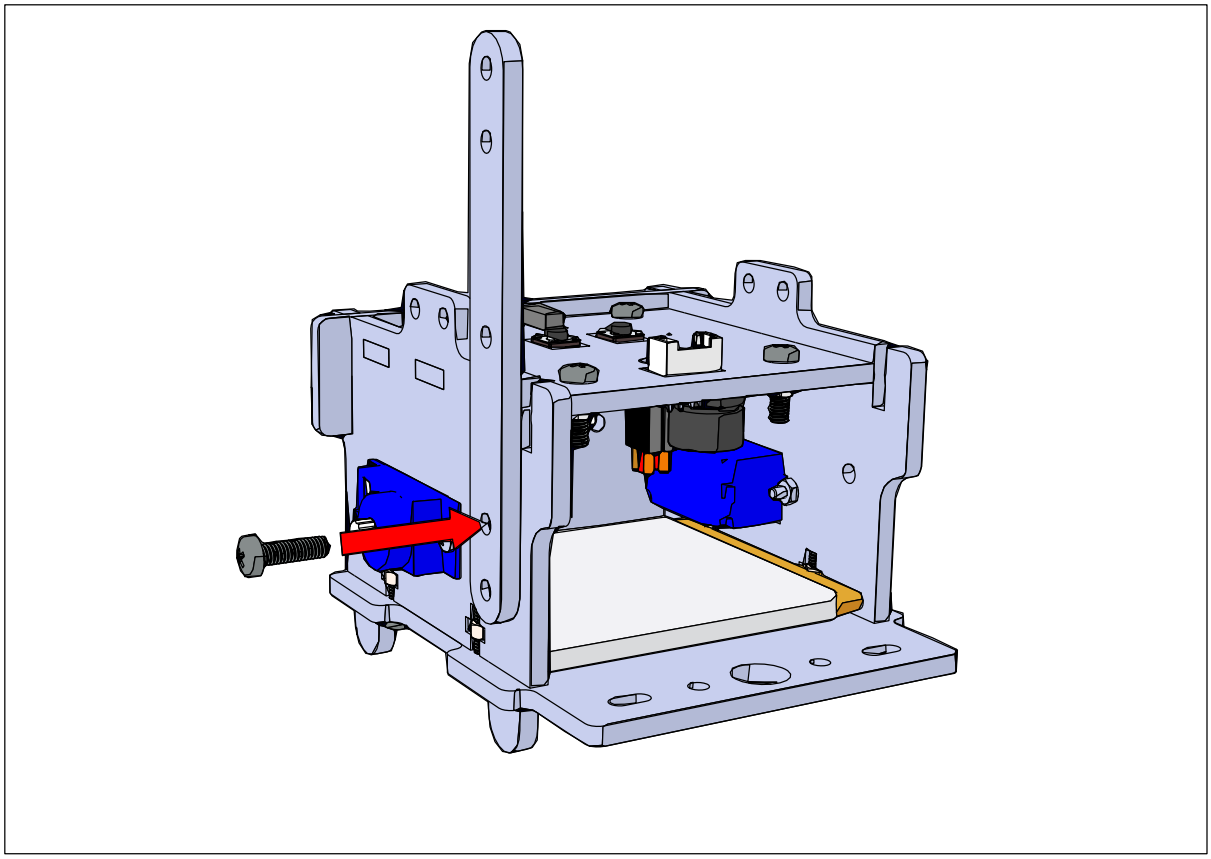


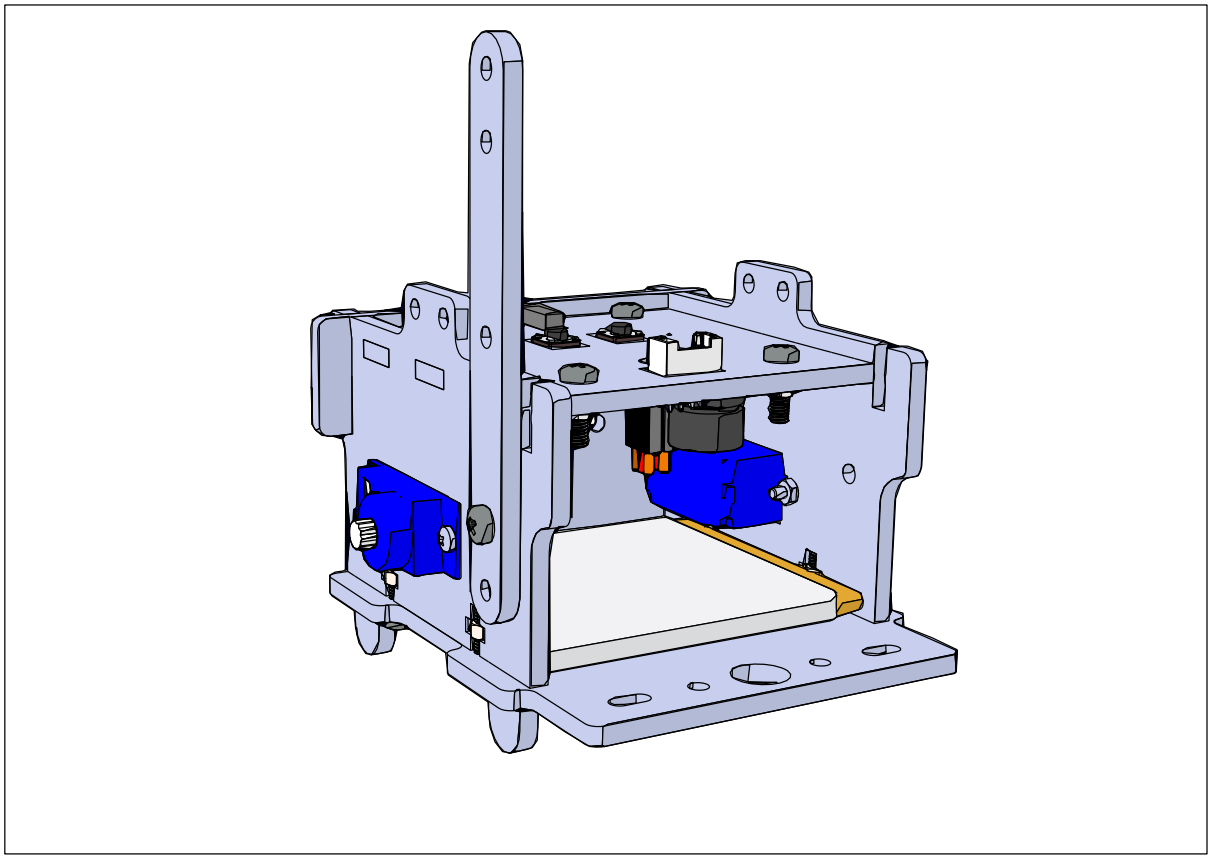


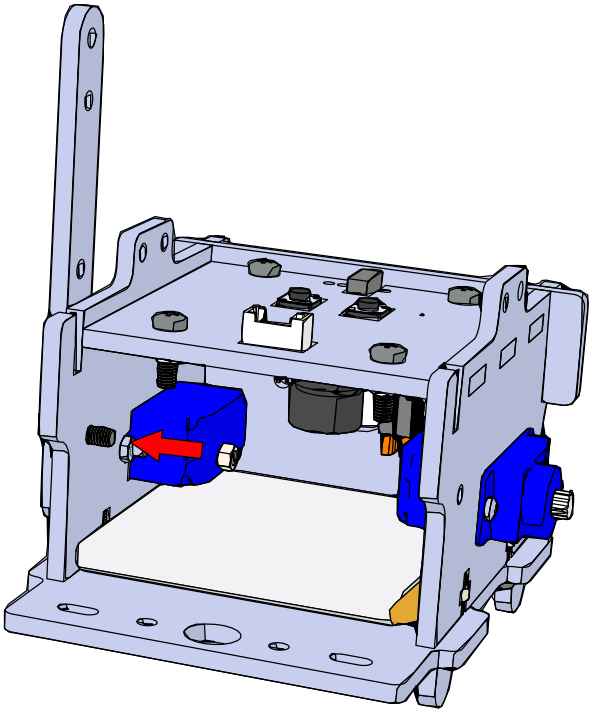
Additional Configurations

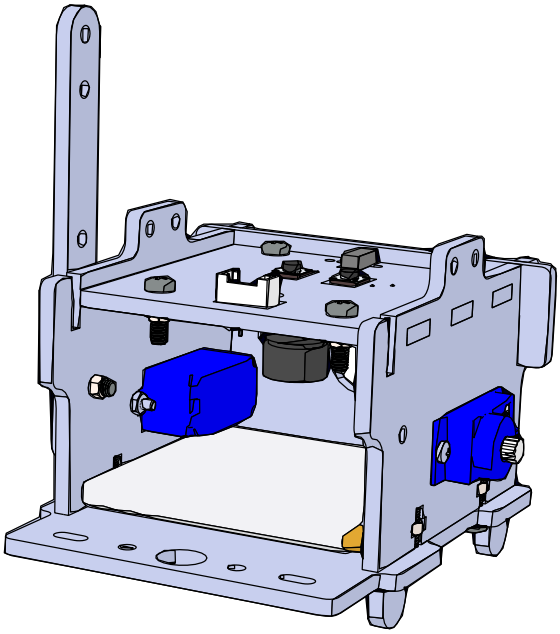


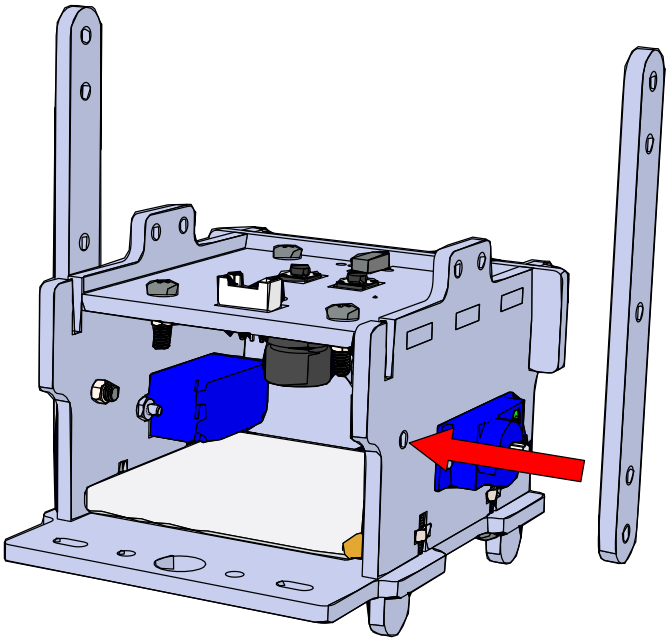


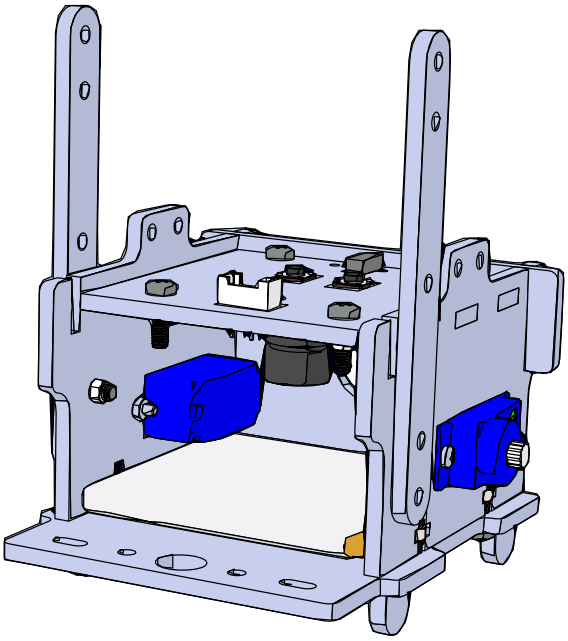


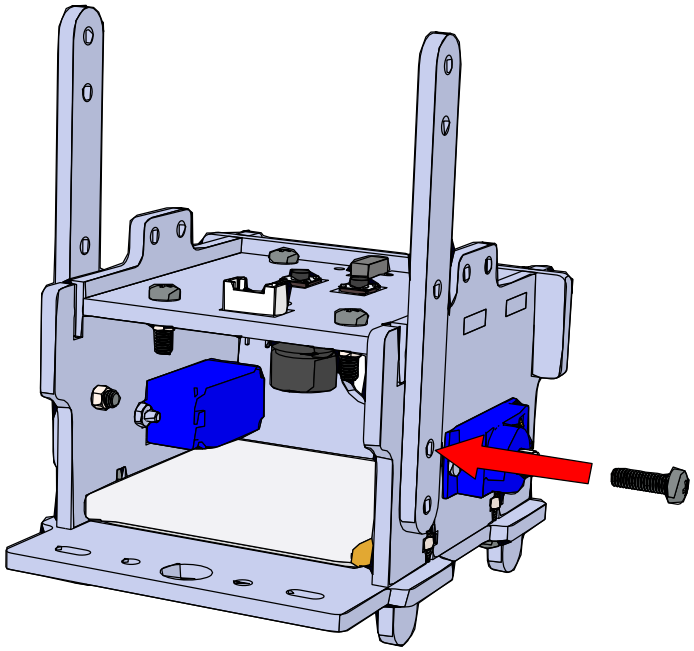


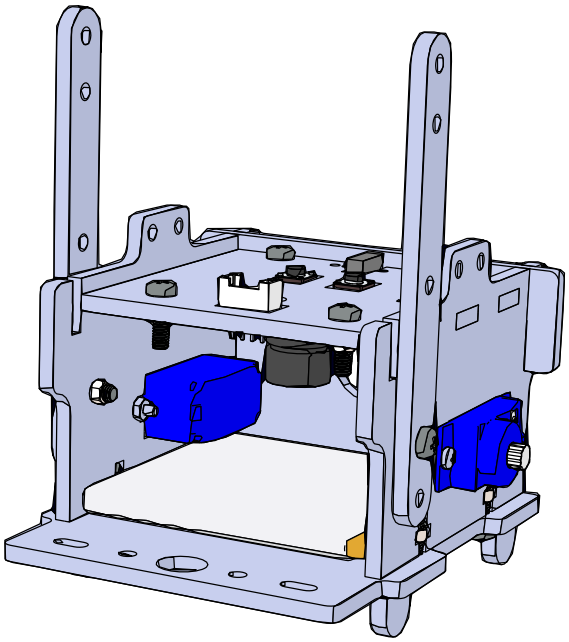


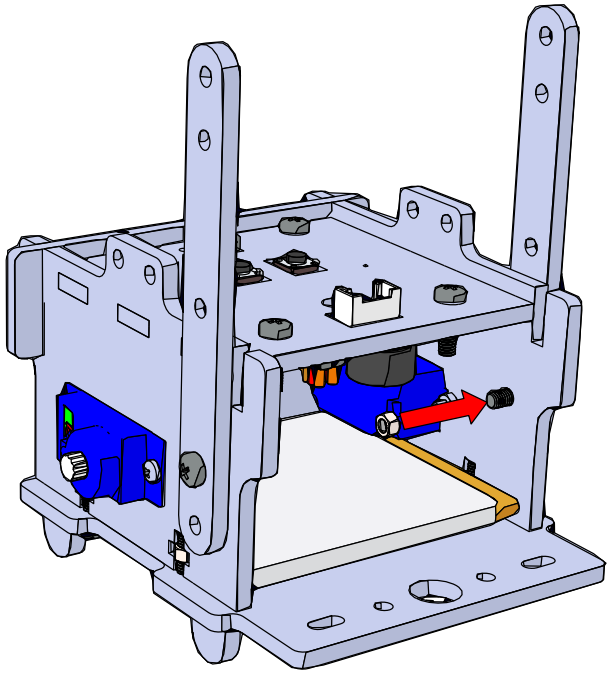


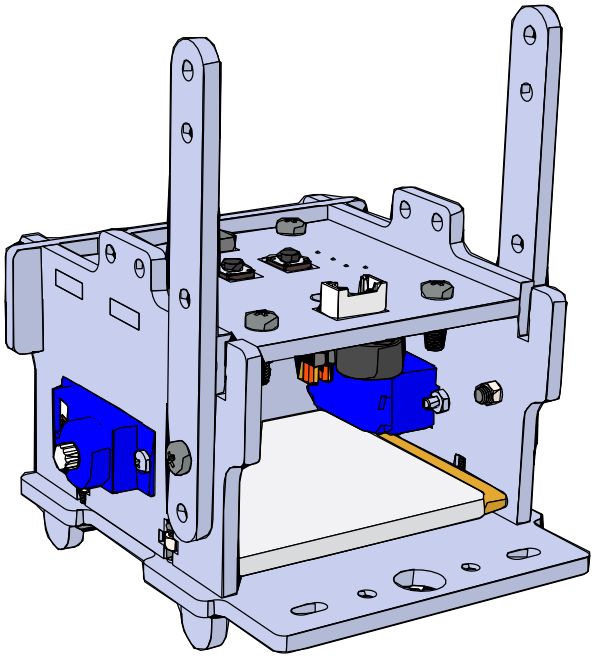


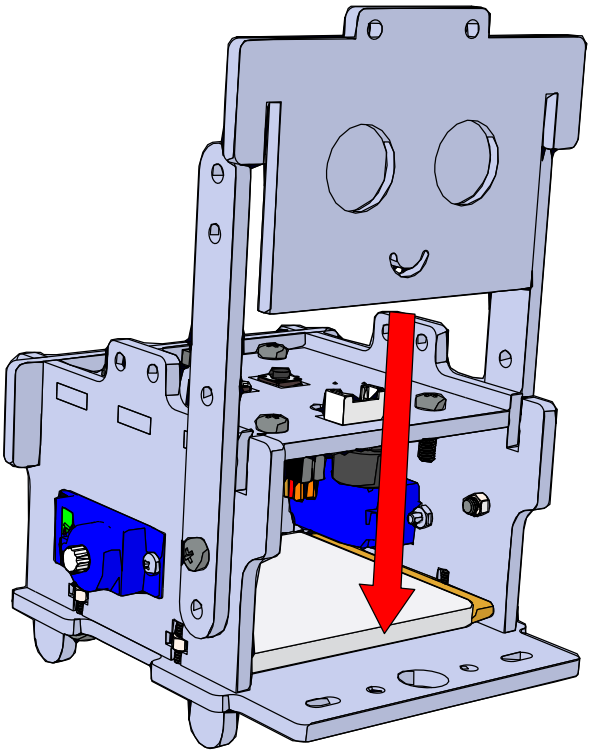


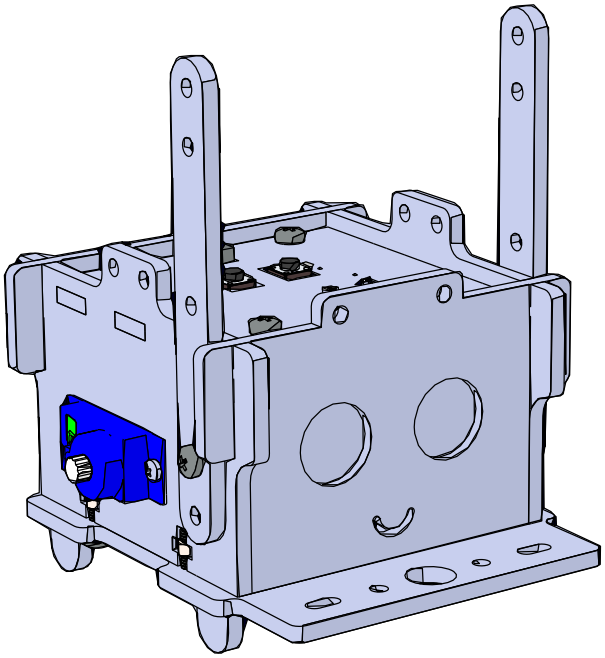


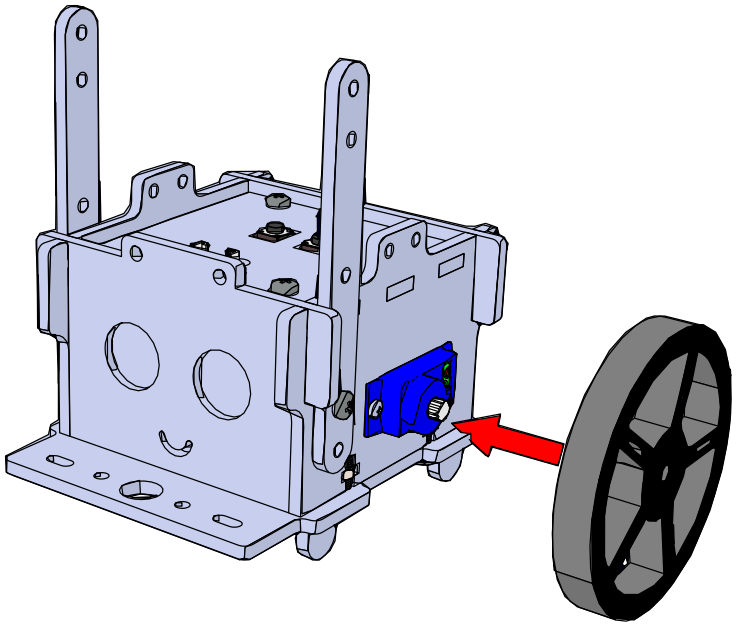


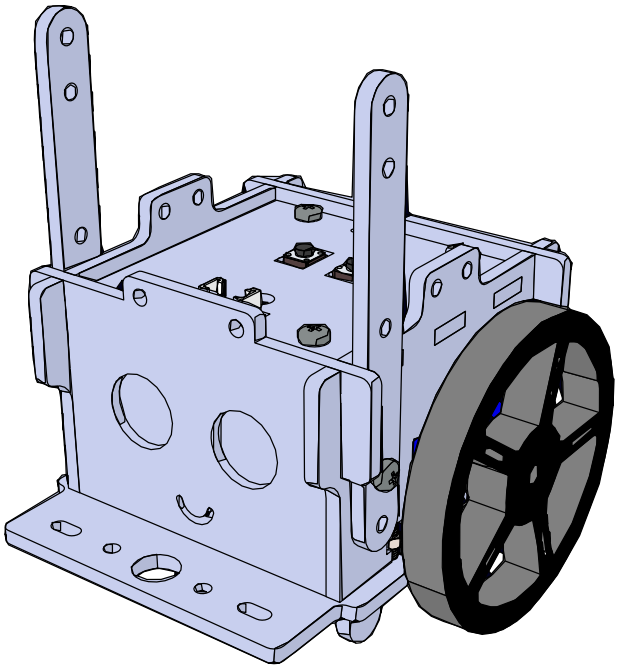


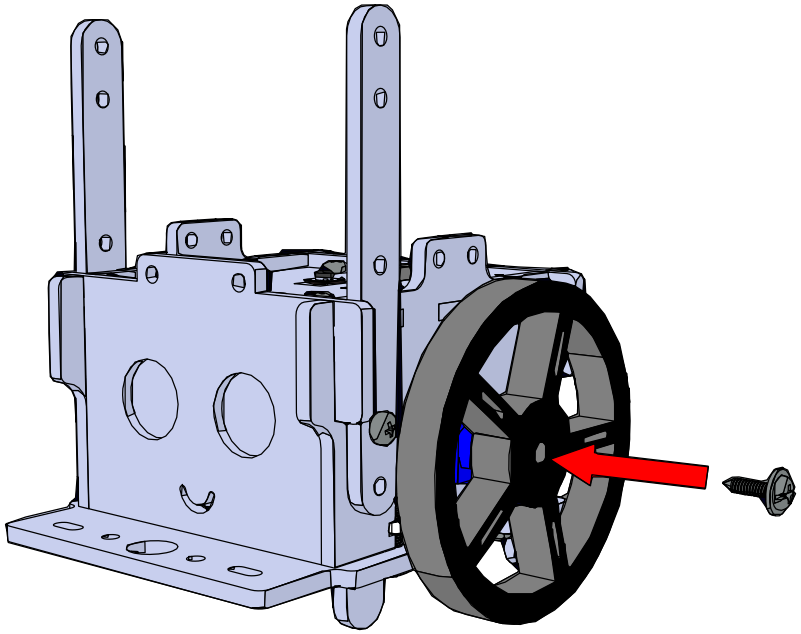


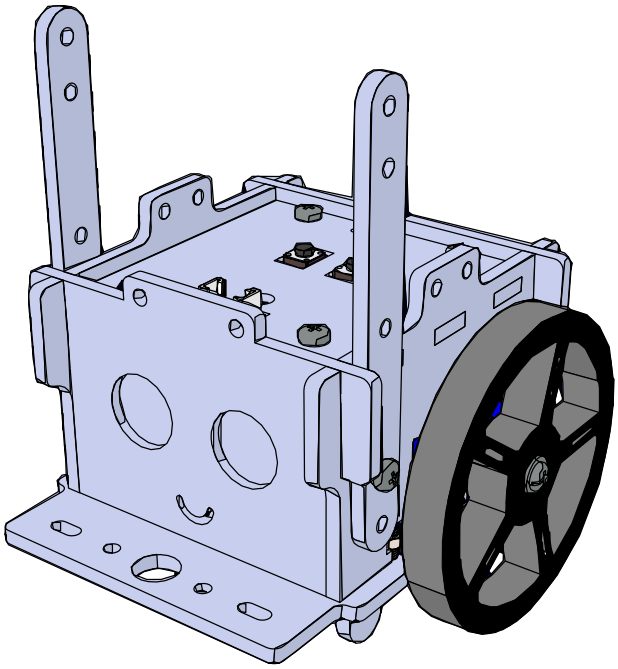


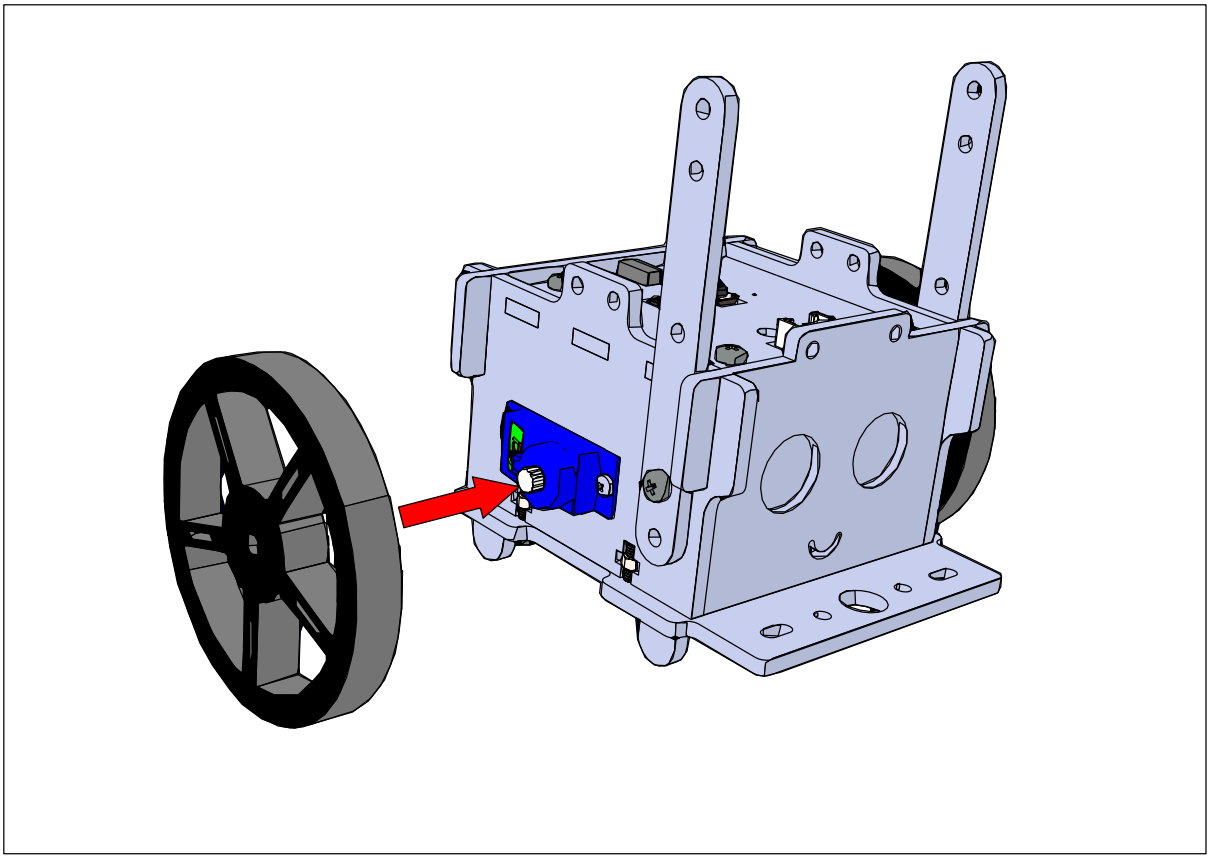


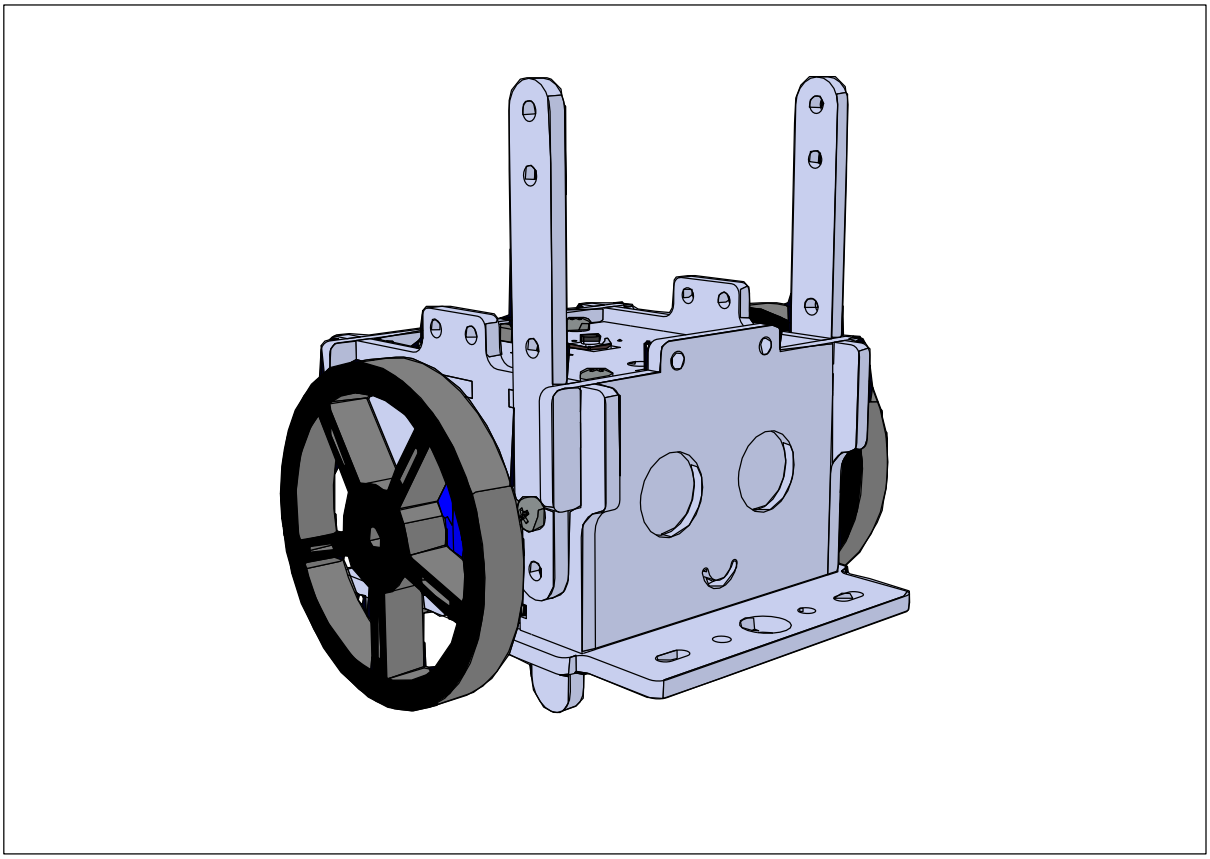


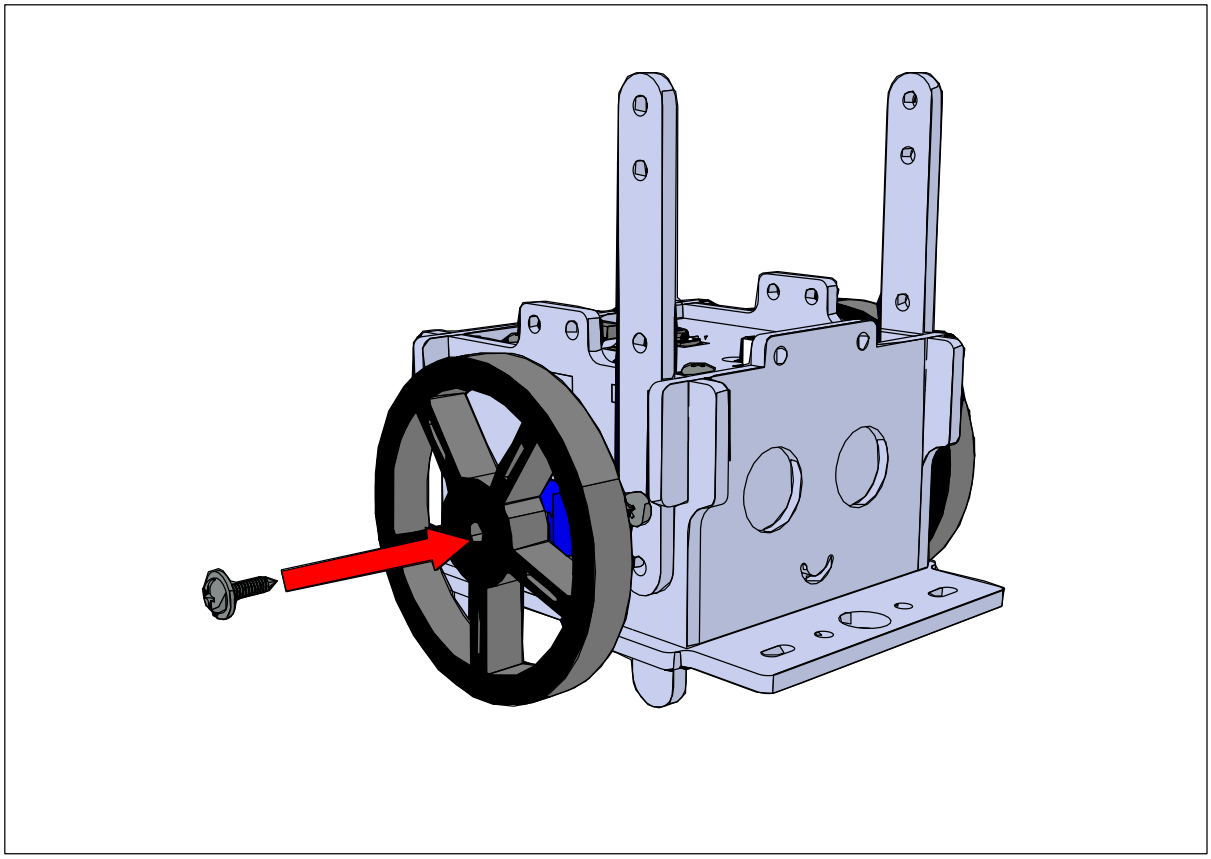


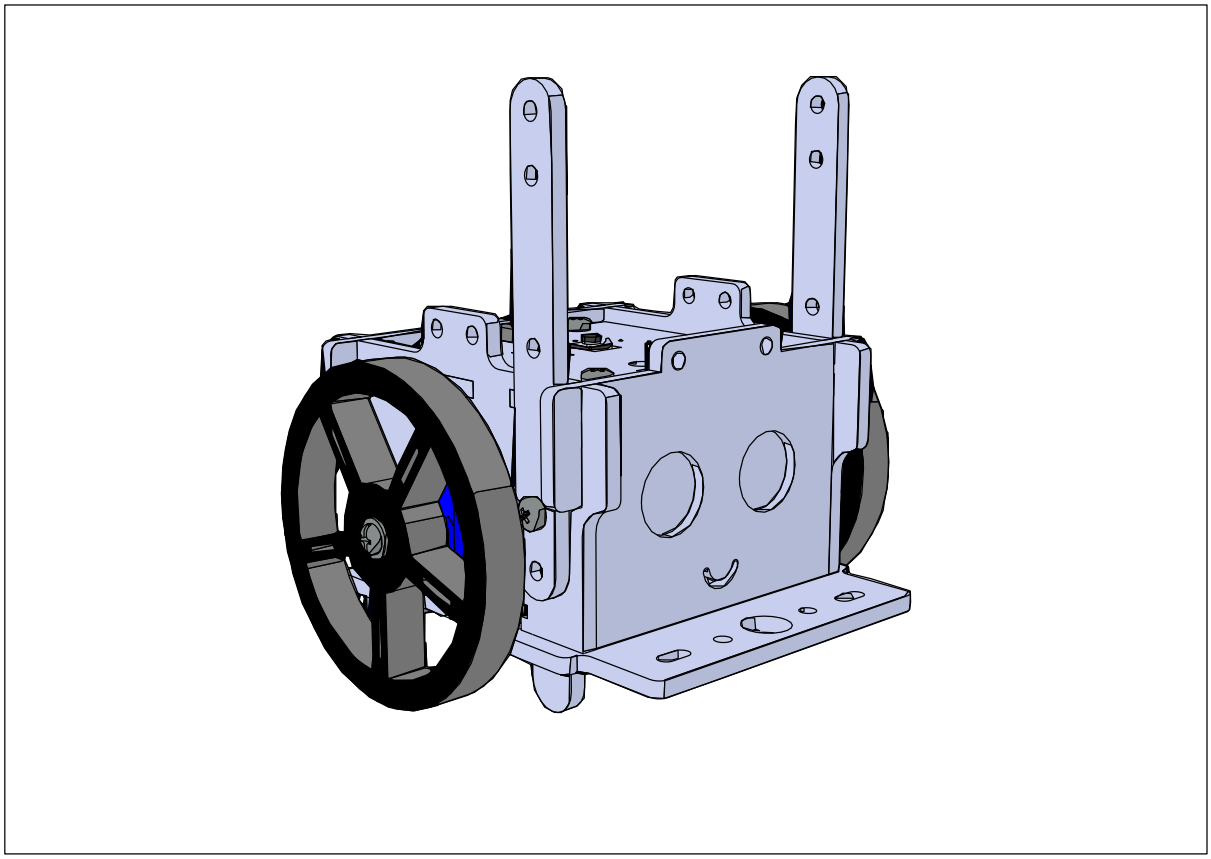












Well done! Your MiiRo bot is now complete with additional functionality and capabilities! It's now ready to be programmed!

The configurations shown in this document are by no means all the configurations possible with the MiiExtention Pack. As for what else you can do, it is really up to you and your creativity!

To continue your robotics journey please go to our website, www.miiabot.rd-9.co.za

Alternatively, all relevant information is contained in our MiiCode Mobile Application which can be downloaded on both the Google Play store and Apple App store. If you are having any issues or difficulty in assembling the kits, please do not hesitate to contact us at info@rd-9.co.za
